REWARD AND ROMANCE

UNUSUAL SERMON ON CHRISTIAN EXPERIENCE BY REV. HUGH K. WALKER, D. D.

As a fitting close to the greatest pre-communion week in the history of the First Presbyterian Church of Glendale, Dr. Hugh K. Walker gave an eloquent preparatory sermon last evening on the satisfaction, reward and romance of Christian service, taking his text from Gen. 32:1: "And Jacob went on his way, and the angels of God met him."

It is the usual program of the church to hold meetings every night except Saturday the week preceding communion Sabbath. Monday night is for prayer and consecration and is led by the pastor, Rev. W. E. Edmonds. Tuesday night is missionary night, or "The World-wide Vision." Student Volunteers from Occidental College who had attended the Great International Student Volunteer Conference at Des Moines, Iowa, were the speakers for this week, and they brought a great message on the work of the life recruit movement. Wednesday night was the regular prayer meeting of the church with the pastor in charge. Thursday evening was Sunday school night, and a splendid set of stereopticon slides on India were given. They were something new and obtained from the Inter-Church World Movement. Friday evening is always "Family Night" when the entire family comes and receives the help and benefit of the preparatory sermon, given this week by Dr. Hugh K. Walker, D. D., as stated before. Sabbath morning is communion service and Sabbath evening is a special musical program. Thursday evening of next week is the final evening of the communion program when the reception for new members will be given. The meetings of this communion service have aroused the most interest and drawn the largest attendance of any in the history of the services, the numbers being about doubled over those of previous years every evening.

ANOTHER BUNGALOW COURT TO BE BUILT

The Glendale Construction Company has recently been incorporated with W. G. Boyd, W. T. Ashton, W. J. Clendenin, J. K. Gilkerson and James Webb as directors. The capital stock is \$100,000 and the purpose is to build dwelling houses. The first job undertaken by the new company will be a bungalow court at the southeast corner of Maryland and Wilson avenues, or two lots recently purchased from the Presbyterian Church Board. This court will have nine frame and plastered bungalows, with a sufficient garage construction to accommodate tenants. The estimated cost of the improvement is \$30,000 and Mr. Boyd, who is a well-known contractor, will have charge of the work. Other building operations will be undertaken by the new company when this one is completed.

NEW BICYCLE RACK AT CITY HALL

That the bicycle has not been crowded out by its big brother, the auto, in Glendale, anyhow, is evidenced by the fact that a rack to accommodate 10 of the two-wheeled steeds has been placed on the lawn at the City Hall. City Clerk Sherer, Chief Lampert and one or two of the policemen, still cling to this method of locomotion.

MASONS RETURN

MATTISON B. JONES MADE GRAND HIGH PRIEST OF GRAND CHAPTER

Mattison B. Jones, David Crofton and Percy J. Prialux returned this morning from a three days' visit to San Francisco. Mr. Jones represented Unity Chapter at the Grand Chapter meeting where he was elected Grand High Priest of the Grand Chapter.

Mr. Crofton represented the Glendale Commandery at the Grand Commandery Conclave and was appointed to a place on the Committee of Acceptance for the session. The two men also attended the Grand Council of the Grand Commandery. Mr. Prialux was not a delegate but went on account of his interest in the order. The three men report a very good time; but that is always understood. They say a decision was reached to hold the Grand Commandery for 1921 in Long Beach instead of San Francisco where it has been held heretofore.

COUNTY BRIDGES

SUPERVISOR DODGE SPEEDS WORK ON BRAND AND CENTRAL AVENUE

Citizens of Glendale, particularly those residing in the northern portion, will be glad to know that Supervisor Dodge is looking after their interests in the matter of the Brand boulevard and Central avenue bridges.

On account of the many complaints that had come in from the residents of North Glendale and also on account of the merchants who are much discommoded in making deliveries in that section, the Glendale Evening News took the matter up by phone with Supervisor Dodge last Wednesday and in the early afternoon of the same day he visited the city, called at the office of the Evening News to thank the editor for calling his attention to the matter which he had supposed was being pushed until advised to the contrary, and inspected the bridges. He reported back that he would at once look into the matter and see that it was properly taken care of.

This morning a telephone message has been received at the City Hall from Supervisor Dodge stating that the Brand boulevard bridges are still in the hands of the contractor because they have not yet been accepted by the county, but that Mr. Ross, the contractor, has agreed to permit the Road Department to go ahead and fix up the approaches ahead of the acceptance of the bridge by the county, and the men are now at work on the approaches. Mr. Dodge expects they can be opened to traffic possibly by the 5th of May, but not later than the 15th. The road crew will build temporary roadways, grade them up and oil them.

Relative to the Central avenue bridge the supervisor says the work crew will be ready to proceed with the building of it in about a week as soon as the men finish the job they are now on. The delay in building that bridge has been caused, he says, by loss at sea of some of the large timbers intended for the bridge and the county has not been able to get others until just now. They are on hand now, however.

The immediate response of Supervisor Dodge to the appeal of Glendale citizens and his evident desire to protect their interests is most gratifying, and the cordiality of his relations with constituents here will be increased if the Brand boulevard bridges are opened to the public by the 5th of May.

TOLEDO, OHIO, CONTRACTOR, BUYS GLENDALÉ HOME

Samuel J. Mannell, a building contractor from Toledo, Ohio, has just bought through Mr. Bourne of the Glendale Realty Company the J. H. Flowers property at 108 East Elk avenue and will move in, with his wife, son and also his mother, about May 1st. Mr. Mannell expects to erect quite a number of houses in Glendale as soon as he gets settled.

JOINT MEETING

Thursday evening members of the Advisory Committee met with members of the Board of Trustees of City Schools at the Intermediate School and informally discussed the needs of the district. No recommendations were made nor action of any kind taken. It was merely a survey of the situation.

M. P. HARRISON HAS NOT MOVED

M. P. Harrison has been considerably annoyed of late by people calling up and expressing surprise that he had moved down on Garfield avenue and he wishes the Evening News to say that he is not guilty. He is still living at 505 North Kenwood and it must be some other Harrison who made the move attributed to him.

GLENDALÉ GUESTS AT BURBANK P. E. O. MEETING

Burbank Chapter N. of the P. E. O. held its regular meeting yesterday at the home of Mrs. F. L. Church, 921 Angeleno street. Guests were present from Glendale, Pasadena and Santa Monica. Those from Glendale were Mrs. W. C. Wattles, president of Chapter A. H.; Mrs. Fern Archer Roberts, president of Chapter L; Mrs. Chas. H. Toll, Mrs. C. D. Lusby, Mrs. Ina Randolph, Mrs. A. M. Parker. After the business meeting there was a musical program and talks from the visitors present. This was followed with light refreshments served on round trays, each bearing a marguerite, the club's chosen flower. The decorations were of Cecil Brunner roses and marguerites.

RAILROAD STRIKE PERSISTS

ATTORNEY GENERAL PALMER GIVING PERSONAL ATTENTION TO "OUTLAW" WALKOUT

(Special Service to Glendale Evening News)

WASHINGTON, April 24.—Attorney General Palmer today gave personal attention to the so-called "outlaw" railroad strike, which was seemingly more acute than for several days. Palmer received reports from Cleveland where his representatives yesterday conferred with "outlaw" strike leaders and from other cities where hundreds of men still are idle. Late yesterday, in a conference with newspaper men, Palmer characterized the strike as "far from finished."

Officials of the established unions would say little concerning the situation in places where the strikers still are out and holding mass meetings.

"We are pressing demands for wage increases on the Railroad Labor Board," said Vice President Doak of the Brotherhood of Railroad Trainmen. "The New Jersey men are trying to reach an agreement with railroad executives. The situation seems not alarming."

President Shea of the Brotherhood of Railway Trainmen appeared today before the Labor Board to argue for the increases asked by the men of his union. He said his men want a "basic living wage of \$6.50 per day with differentials for responsibility, skill and experience."

AMERICANS ON WEST COAST

GEN. ALVARADO INSTRUCTS GOV. HUERTA OF SONORA TO TAKE STEPS TO PROTECT FOREIGNERS

(Special Service to Glendale Evening News)

WASHINGTON, April 24.—General Alvarado, representative here of the Obregon revolution, today telegraphed Governor De la Huerta of Sonora that immediate steps should be taken to afford protection to Americans and other foreigners on the west coast of Mexico.

Secretary Daniels said today the instructions to the commanders of the gunboat Salem and the destroyer McCauley, ordered to Mexican waters, were to "observe and report."

MORE TROOPS FOR BUTTE

APPEARANCE OF CITY NORMAL EXCEPT FOR PATROLLING OF SOLDIERS

(Special Service to Glendale Evening News)

BUTTE, Mont., April 24.—Another detachment of regular army troops from Camp Lewis, Wash., arrived here today for duty in the miners' strike. Since Wednesday's rioting, followed by the arrival of the first troops early Friday morning, the city has been quiet. Except for the patrolling of the streets by the soldiers and the appearance of a few I. W. W. strike pickets, the city was normal today.

PRINT PAPER BILL SIGNED

PRESIDENT AFFIXES SIGNATURE TO MEASURE ENCOURAGING PAPER IMPORTATIONS

(Special Service to Glendale Evening News)

WASHINGTON, April 24.—President Wilson today signed the print paper bill and the postoffice appropriation bill which authorizes the establishment of some of the transcontinental air mail routes. The print paper bill provides that imported paper costing 8c or less a pound shall not be dutiable. It raised this exemption from 5c a pound as a means of stimulating imports of print paper.

LANDSLIDE FOR JOHNSON

EARLY RETURNS FROM MONTANA ELECTION INDICATE CALIFORNIAN IS FAVORITE

(Special Service to Glendale Evening News)

BILLINGS, Mont., April 24.—A landslide for Senator Hiram Johnson was indicated in today's early returns from the Montana presidential preferential primary held yesterday. Out of 1500 precincts in the state, 201 precincts had given Johnson 6512, Wood 1864, Hoover 1623, Lowden 1403, Harding 595.

Although no democrat had filed for the presidential candidacy, many voters wrote in the names of democratic presidential possibilities including President Wilson.

JOSEPH CAILLAUX RELEASED

WARNED BY OFFICIALS THAT ORDER OF LIBERATION FORBIDS HIS RESIDENCE IN PARIS

(Special Service to Glendale Evening News)

PARIS, April 24.—Joseph Caillaux, former premier of France, convicted of correspondence with the enemy, was released today. Caillaux left the hospital at Neuilly, where he has been confined, after a lecture by senate officials who warned him the order of liberation forbade him to sojourn in Paris or any of the big French cities.

He motored to his residence in Paris from where he will soon leave for the country.

SHAKESPEAREAN TEA

A TUESDAY CLUB SECTION DELIGHTFULLY ENTERTAINS MEMBERS

Yesterday members of the Shakespeare Section of the Tuesday Afternoon Club, following the good example set them by other sections, gave an entertainment and a most artistic one for the benefit of the Club House Fund. That it might consistently conform to their special interest it was made a Shakespearean Tea, but the tea, grateful as it was at the close of the afternoon, was the least part of the pleasure provided, which was a program of scenes from Shakespeare's plays put on by members of the Galpin Shakespeare Club of Los Angeles, with interludes of music by the members of the Tuesday Club who also represented Shakespearean characters and were costumed to fit their parts as follows: Mrs. E. D. Yard, curator of the section, Ophelia; Mrs. John Cotton, Katherine the Shrew; Mrs. Colin Cable, Celia in "As You Like It"; Mrs. Roscoe Puffer, Doge of Venice; Mrs. Walter Jones, Lord Oliver; Mrs. Frank Ayars, Desdemona; Mrs. Lyman, Phoebe, the Shepherdess; Mrs. Waite, Portia; Mrs. Kling, Bassanio; Mrs. W. E. Evans, Juliet; Mrs. Harry Greenwalt, Lady Macbeth; Mrs. Charles Parker, Romeo; Mrs. Calvin Whiting, Nerissa; Miss Gertrude Champlain, Rosalind; Mrs. G. D. Roach, Petruchio; Mrs. Mabel Rudy. (Continued on Page Twelve)

MRS. RUBY SMART HONORED

One of the interesting announcements made at the W. C. T. U. County Convention held this week in Glendale, was the announcement that Mrs. Ruby Smart, president of the local City Union, has been made a life member of the W. C. T. U. on payment of \$100, by the national superintendent, Mrs. Caroline McDowell, of Pittsburg, Pa. Mrs. Smart is the only life member in this county. Another interesting item was the announcement that Mrs. Gauntlett, mother of Frances Gauntlett, of this city, is a delegate from Japan to the W. C. T. U. conference of nations, which is being held in London where the representatives of forty nations are meeting in the interest of world prohibition. Madam Yagima, who is also a delegate, is president of the Japanese organization.

HIGH SCHOOL SITE PROPOSED

I am glad to see that the High School Trustees are going to let the people have a chance to express their opinions as to the place the High School should be located. As fine a location as could be found is on the northeast corner of Lexington Drive and Glendale avenue. This property lies between Glendale avenue and Adams street and north of Lexington Drive. This property has no valuable improvements nor has it any streets or alleys to vacate.

Other reasons why this site would be more acceptable to the public are the following: It is located centrally and is convenient to the Eagle Rock or Montrose cars, the Pacific Electric cars come within three blocks of the location making it convenient for all the students to get to the school.

Next in importance is the necessary acreage could be gotten in one lump. There are seven acres in the front piece with an addition of several lots on Lexington Drive. Back of this is enough to bring the amount up to 14 or more acres as desired. This land lays level and would make an excellent athletic field. No other site could be found that would be so near to the car lines and would be ideal to all concerned. I understand this property is being offered at a sacrifice price and there could not be too much said in its favor. Please give this site your careful consideration.

H. D. POTTER.

L. M. WEST MAKING GOOD IN AUTO INSURANCE

Leslie M. West, district manager of the Union Indemnity Exchange of California, is building up a fine business in insuring autos, through judicious advertising in the Glendale Evening News and his own abilities as a hustler of the first degree. Though his main office is in Pasadena he lives in Glendale and has his office at 716 East Broadway. He is a son-in-law of Chas. W. Kent. Mr. West sees to it that all bona fide losses suffered by his clients are adjusted with the utmost promptness and this has gained him an enviable reputation among the insured.

FOOTHILL HOME

DR. GRIMM BUILDING FINE RESIDENCE IN ORANGE GROVE

Dr. J. G. Grimm, a retired physician of Portland, Oregon, came to Glendale with his daughter early last winter and rented the house at 353 Salem street. He liked this section so well that he decided to locate permanently, so bought three acres of a large navel orange grove on the east side of Grand View avenue, a short distance south of L. C. Brand's home. Here a 6-room house with a partial basement was planned and the foundation is now being constructed. T. H. Addison, the well-known Glendale contractor, is in charge of the building. Six orange trees were cut down, three from each of two rows, which will leave the house entirely surrounded. The front door is to the west and looks out between two rows of blooming and bearing trees, toward Grand View avenue. A short distance north is a private road leading east from Grand View avenue to Highland avenue and a side entrance leading out to this road will be used until the front is improved with walks and flowers. It is probable the orange trees will be left in the front yard and thus the front walk will be tree bordered all the way from the house to Grand View Ave.

The house will be of frame construction entirely and the inside finish will be of the finest. Light and water service from Glendale is available and will be put in, as well as gas and telephone. Thus all city conveniences will be at hand in this fine suburban home.

AMERICAN PRINCESS VISITOR IN GLENDALÉ

Princess White Deer was the guest of Mr. and Mrs. C. F. Morton and Mr. and Mrs. G. H. Morton and daughter, Ruth, of 412 North Isabel street, during her weeks' engagement in Los Angeles. The Princess is of true American ancestry. Her grandfather is Chief Running Deer of the Mohawk tribe in Northern New York. She has traveled in many foreign countries and won fame in her art. This is her first visit to our sunny Southland. She is very much delighted with its beauties and hopes some time to come back again.

WEATHER FORECAST—Fair to night and Sunday.

W. C. T. U. CONVENTION

ELECTION OF OFFICERS CHIEF BUSINESS OF CLOSING SESSION

The election of officers of the Los Angeles County W. C. T. U. was the chief business of closing sessions on Friday. Before adjournment for lunch a president had been selected in Mrs. Marie Yeoman, a new comer in Glendale but an old worker in the W. C. T. U. She was president of the Orange County Union before coming to this city. Other officers were:

Vice-President, Mrs. Hattie Young.

Corresponding Secretary, Mrs. L. E. Richardson of Glendale.

Recording Secretary, Mrs. J. Victoria Bannister of La Verne.

Assistant Recording Secretary, Mrs. Louise Morton of Glendale.

Treasurer, Mrs. Clara Sheldon.

Under the list of five-minute addresses by heads of the various departments of work, four ladies were present and responded to call for reports. The first of these was Mrs. Fannie L. King, chairman of Prison Reform. With two assistants to represent a prisoner and his wife, she made a dramatic presentation of her methods in visiting prisoners and the sort of advice she gives prisoners and their families.

Mrs. J. Victoria Bannister, chairman of Social Meetings, told of picnics, parlor socials and other forms of promoting acquaintance and cordial relations.

Mrs. Lucius Richardson, of this city, chairman of Soldiers' and Sailors' Department, reported visits to Ross Field and work among soldiers there. This department of work the convention has decided to drop.

Mrs. S. D. Warner, who heads the department of work among railroad employes, has adopted an unique way to promote their interests. She keeps her eyes and ears open for courtesies which they show to passengers and other worthy acts and makes it her business to go to the offices of the company and report

Particular Advantages of OVERLAND SEDAN for Summer Use

The Overland Summer Sedan, because of the **Triplex Springs**, will take you comfortably anywhere a touring car will go; it will take you in comfort wherever wheels can find traction. It is an ideal family car for the summer tours, for picnic parties, for week-end trips, for travel anywhere on or off the beaten path.

The **cleanliness** of the Overland Sedan will appeal not only to women, but to men as well. In the summer men wear light clothes, and women delicate fabrics. Only in the Sedan are they protected against the dust swirls of country road and city street.

The Overland Summer Sedan is the coolest car to drive. The roof gives grateful, secluded shade from the sweltering sun, whether in the city streets or on the country road. With the windows down and ventilator in cowl opened, a cooling, refreshing circulation of air is created throughout the car.

Spinning along the road, a sudden shower comes down. The shower settles into a steady rain, buffeted by the wind. In the Overland Sedan, there are no side curtains to shut out daylight and leak rain. In the Overland Sedan you merely close the windows and have no **shut-in** feeling. The wide, high windows give you an unusually generous vision. You come home as dry and unworried as you left.

After a hot day, the nights may become suddenly cool. Only in the Sedan may you ride then in the shelter you like. For the windows may be adjusted to any height desired. The **ventilation is at your control**. But there is never any stuffy shut-in feeling. In summer shopping in the city the doors of the Overland Sedan may be locked, and both your car and your **parcels are safe** while you remain away from the car. Children, sitting unattended, are safe in the rear seat of the Sedan.

The **ease of handling** of the Overland Summer Sedan is a further advantage. The car will turn in a 33½-foot circle. Short-turning radius gives an unexcelled ease of handling in city traffic and in **parking** quickly in small spaces along the curb. It is an appreciated advantage in turning out and turning around on the country highway.

Clean, cool, rain-proof, chill-proof, easy to handle, economical, light in weight, with **Triplex Springs** comfort, Overland stamina, quality materials and quality workmanship—that's the Overland Sedan!

We will be pleased to make a demonstration in a Sedan. Immediate deliveries.

Glendale 1400

OVERLAND AS HURDLER

JUMPS 12 FEET OVER FIVE-FOOT BARRIER AT DENVER

Mr. Lawrence, manager of the Overland Glendale Agency, is mightily enthused over the wonderful performance of an Overland Four at the Denver horse show. After the horses had shown their activity in all kinds of races an Overland came racing out with a papier mache head fixed to the radiator and with the driver dressed as a jockey. After circling about in amazing twists and turns and outdoing the most agile of the equine contestants a hurdle was prepared, with timber inclines 10 feet long and rising to 2 feet in height were placed on either side of a 12-foot gap in the center of which was a 5-foot barrier. The Overland sped up to this at 24 miles an hour, leaped the hurdle and came down on the other side with a force of 41,000 foot pounds, the driver all the time cracking his whip and urging his steed in true jockey style. The leap was made with the same car every day for a whole week and the triplex springs with which it was equipped suffered not the slightest injury.

This test, more than thousands of miles of highway traveling, shows the wonderful power and flexibility of the triplex springs.

THE TEACHER SHORTAGE

Increased interest is being manifested locally in the campaign which has for its purpose a readjustment of the salaries of school teachers, the entire county being aroused over the prospects of a great shortage of teachers for the coming school year.

It is conceded that an adjustment must be made immediately for it will not be a great while before school boards of education begin selecting instructors for the next school year. With a shortage of thousands of teachers who have gone into other lines of endeavor because of inadequate salaries paid the teaching profession it is believed certain that many teachers will refuse re-employment in the public schools, unless there is a satisfactory salary adjustment.

The situation is causing apprehension not only in Los Angeles county but all over the state and in many Eastern states. Efforts are being made for an adjustment which will afford a living wage for the teachers and which will also be an incentive for those who are now employed to retain their positions. At the same time it should also be an incentive to those who are taking normal school courses to accept teaching positions instead of other work.

Endorsement of the proposed plan for increases in teachers' pay is being given by various public organizations. Similar plans for endorsement are now under way here, it is stated. Citizens point with pride to the local schools and are much concerned over the possibility of losing a number of the best known and most efficient of their teachers. The latter claim that it is impossible to live properly on the salaries paid and, with so many other better paying positions open, teachers are forsaking the teaching profession in large numbers.

Each grain of sand is made up of the tiniest of tiny shells that were once the home of living animals. Before its life ended each of these animals built for itself a casket of exquisite beauty which it left behind to form a particle of the countless sands of the seashore.

BUILDING PRICES

A symposium of the views of members of various branches of the building trade published in the current number of a well-known trade journal is of vital interest to everyone who contemplates building any time in the next few years. The consensus of opinion among these men, after an exhaustive survey of conditions, was that building costs will be higher for the next five years at least. It is pointed out that those holding the opposite view predicted a year ago that prices must be lowered as they were then prohibitive. Yet never in the history of the state and particularly of Glendale has there been such a wonderful increase in construction of houses of all kinds. And today there is no indication of a let-up. Not only are

there fully a half million dollars' worth of new buildings now in course of erection in Glendale and its suburbs, but others are planned far ahead. Another reason for higher building prices given in the symposium referred to was the increasing demands of workers. A table was printed showing present prices paid carpenters, bricklayers, cement workers, painters, plumbers and electricians and their demands for the near future, and the advances asked are from 25 to 100 per cent. And still skilled laborers are not too plentiful by any means.

The advice given by all trade journals, so far as noted, is that if you intend to build any time during the next five years, do it now.

Also Judge Essex Fineness By the Hudson Standard

The Essex is Famous for Beauty as Well as Performance

Essex performance proofs naturally overshadow its qualities of quieter appeal.

For prior to Essex, it was held that light weight must mean some forfeit in smoothness, speed, power and endurance.

But even those whose choice was decided by its supreme performance ability are captivated by its notable beauty of design, its luxurious fittings and its quiet riding ease.

It is not merely that Essex matches large, high priced cars in comfort. It is not only its speed, its quickness at the getaway and its quiet mastery of the hills. Its charm is the combination of these qualities with a flying smoothness in action and a responsiveness that heeds the lightest touch.

Great Surplus Power Makes Driving a Joy

Abundant surplus power handles the Essex with ease in every situation. This surplus power and strength, beyond any need you will ever have, accounts for Essex smoothness in tasks at which many cars strain with permanent injury to their mechanism.

Hudson Design and Super-Six Motor Still World Supreme

Every day you see Hudsons, two and three years old, which, both in style and performance, might well be judged of recent production.

Advanced ideas you will always find in Hudson. That fact created its style leadership. But they must earn their right to belong. No mere straining after something new has ever won place for a single feature in Hudson design.

On fashionable boulevards you see more Hudson chauffeur-driven cars than any other make. Yet leadership in style alone was not enough to win such recognition.

Hudson Leads All Fine Cars in Performance

Hudson's chief advantage has always been in performance. Its many official speed, power and endurance records were made four or five years ago. But they still stand. They account for Hudson becoming the world's largest selling fine car.

Those records are the reason why no change has ever been made in the principle of the Super-Six motor. It is exclusive in Hudson. You can get its advantages in no other car.

CLEVELAND BODIES

INFINITE PAINS ARE TAKEN IN THEIR CONSTRUCTION, SAY BARTLETT & FRENCH

In choosing a new car it is important to consider how the body is made, down under the paint. Too often the mere exterior gloss and color are allowed to sway the judgment.

Infinite pains are taken in the construction of the body of the Cleveland Six, according to the local distributors, Bartlett & French. In the first place, the body is the product of the famous Fischer Body Corporation, builders of most of the bodies on the expensive closed cars. Only selected hardwood is used, and it is especially kiln dried to prevent warping. All joints are re-enforced by drop-forged body irons.

Die stamped sheet metal is fitted over the wooden frame of the body. This metal is exceptionally strong and light. All metal panels are securely fastened to the body and also re-enforced by extra shims of steel which are spot welded over all the places where difficulties are encountered with other bodies. The outer surface of the wooden frame is smoothly sandpapered, so that the shapely, rounded metal panels fit perfectly.

These sheet steel panels are fitted to the body under strain with drum tightness, and have a layer of felt padding between panels and frame which eliminates all squeaks and rattle. All seams are fitted with fused metal and acetylene welded to form an unblemished surface.

The doors of the Cleveland Six receive the same attention as the bodies. They are die stamped and carefully fitted and equipped with extra strong, full swing hinges.

Cleveland Six bodies are not affected by temperature or climate; they are non-warping, non-squeaking and will not rattle or lose shape.

DOZEN ENTRIES FOR GLIDDEN TOUR

More than a dozen automobile manufacturers have notified the American Automobile Association that they will enter stock cars in the National Reliability Tour for the Glidden Trophy, which will be run from New York to San Francisco, probably over the Lincoln Highway. Several others have promised to support the project. The definite date for the start has not been set, but it is understood that it will be about Sept. 1st.—Automotive Industries.

BAR FOREIGNERS

Only Citizens Can Be Members—The Columbus Automobile Club, Columbus, O., has adopted a resolution denying membership to any motorist who is not a citizen of the United States.

TOUGH ON DETECTIVES

It must make a revenue sleuth feel pretty cheap to trail the odor of distilling 37 blocks and then discover that he has been following a man who was using alcohol in his radiator.—Detroit Motor News.

ONE WAY OUT

One of the American Red Cross transportation difficulties overcome in Montenegro was crossing an unbridged mountain pass where the motor trucks had to be taken apart on one side, carried across by 80 native porters, and assembled again on the other side.—American Motorist.

Three million dollars of the California Highway bonds of the \$40,000,000 issue have been sold to the Anglo-London-Paris bank of San Francisco.

222 E. Broadway. Glen. 596

THIEVES PLAN DRIVE

MOTORISTS ARE WARNED TO TAKE UNUSUAL PRECAUTIONS

Auto thieves are planning the greatest "drive" in the history of their kind, according to information secured by the detectives of the Automobile Club of Southern California, and every motorist in this part of the state is warned to begin taking certain precautions at once.

Confessions secured by police officials and the Auto Club from thieves placed under arrest recently indicate that the months of May, June and July have been selected by the theft gangs operating in Southern California as the period in which they will advance their operations to a wholesale basis.

Motorists, in the first place, are asked to turn in their state license numbers to the Club at any of its branch offices or the headquarters so that it can be placed on file. No record is available at this time to show the license numbers, and if a machine is stolen no identification of an official nature can be secured. These numbers will be preserved by the Club and used in its telegraph barrage system to recover stolen cars.

Auto owners are also warned to avoid delay in marking their machines with secret identification marks which thieves cannot eradicate. The first things the thieves usually remove are the motor and factory numbers on all parts of the car. Unless the motorist has put a hidden mark somewhere it would be impossible for him to identify his own car in case it was recovered.

point out Auto Club officials.

There is every indication, it is further stated, that private garages throughout the southern counties of California will be used as storage places on a greater scale this summer than ever. Garage owners who rent space to strangers are asked to inform the Club of the circumstances so that cars stored under suspicious conditions can be investigated by the theft bureau.

At least \$200,000 in stolen autos is the valuation placed upon cars which are at present hidden in private garages. These could be recovered if the owners of the garages would communicate with the proper authorities, it is stated.

KEROSENE WILL CUT VALVE STEM CARBON

A very simple way of cleaning valve stems which are under suspicion of harboring carbon deposits is to inject a little kerosene in the air valve of a carburetor while the engine is running. In this way a little of the kerosene finds its way down the valve stems and softens and washes off the carbon. It is no bad idea to do this once a month or so.

STILL ONE A MINUTE

You still see accounts in the newspapers of men who have lighted a match to see how much gas there was in the tank. Something always seems to happen before they can file a report as to the quantity. When there comes a substantial falling off in the number of these newspaper accounts it will be time enough to take stock in the theory that the boob birth rate is diminishing.—Detroit Motor News.

NEW AUTO EPOCH

LIGHTER AND MORE ECONOMICAL CARS TO COME FROM SPEED CRUCIBLE

The struggle for supremacy to be waged this year on the speedways between European and American cars and drivers is of more interest than ever before to the motoring world because it forecasts a new era of automobile design, say Chambers & Felts, of the local Hudson & Essex Agency. This was indicated at the Indianapolis speedway last year when a Baby Peugeot showed its heels to cars of almost twice its size thus proving that brute size is not essential to performance.

As a result, the Indianapolis Speedway this year has reduced the limit on the size of motors from 300 inches to 183 inches cubic displacement. This means lighter and smaller cars than ever before and therefore more economical cars. But, despite this limitation in size, it is expected that the speed will be higher than ever before and that, because of the improvement in materials, the reliability of the cars will be greater.

European designers, both French and English, are already busy on special speed creations along these new lines. In America, as far as is known, the manufacturers are doing little, being too busy with production, but many drivers are working on their own mounts. De Palma, it is understood, is under contract to drive a French car, but rumors come from Detroit, that he may again ap-

OLD FORD RACER

CAR WHICH FIRST BEAT MILE-A-MINUTE RECORD IS ON TOUR

The original old Ford Racer, "999," which back in 1903-04 started the Ford reputation towards the present day success by beating the mile-a-minute record driven by Barney Oldfield and Henry Ford, himself, has been found. Strange to say, the old car was discovered right out here on the Pacific coast, in San Francisco, and has been purchased by W. L. Hughson, Ford dealer in both Los Angeles and San Francisco. Mr. Hughson has had the car cleaned up, shined, insured it for \$25,000, which makes it a pretty high priced Ford, and has sent it

pear at the wheel of an American car.

Deusenberg is known to have three small eights which will be eligible and the Chevrolet Brothers are sure to be contenders. As to the drivers, Earl Cooper, a former member of the Stutz racing team, has just bought a stock Essex as has Ira Vail, who formerly drove a Hudson Super-Six, and "Dave" Lewis, an ex-Deusenberg driver.

The displacement of the Essex is only 179 inches so it comes well within the Indianapolis limits. This together with the remarkable endurance it has displayed, may result in its entry in some of the big speedway events by individuals, but it is not believed that the Essex factory will take any active part in speed contests this year.

out on an exhibition tour. It was recently shown at the San Francisco Auto Show and proved to be one of the main attractions of the whole show.

This car first made its debut in 1904 when Henry Ford drove it to success at a speed of one mile in 39.45 seconds on an ice track built on Baltimore Bay. The "Ford Times" of July, 1903, referring to "999," says: "It won race after race in every part of the country. Its performance was a real sensation, not only here but also abroad, and did as much to make the name of Ford known as any other circumstances."

The same article, after boasting of the 20,000 Ford owners—there are now more than 3,000,000—goes on to say why racing was discontinued. "In the early days of the industry, racing undoubtedly stimulated business and was of benefit as a trade bringer for a new product. Today it is unnecessary to engage in races and stunts to awaken the growing demand for more cars. Interest enough has been aroused in the automobile industry to enable it to do away with any such stunts. There was a time though, when no entry list was considered complete until the Ford entry was in, and the records of these four and five years are replete with triumphs of Ford cars, guided to victory by such experts as Henry Ford, Frank Kulick and by Barney Oldfield."

America is to have a national motor truck reliability run in June, covering a distance of 2500 miles in eight different states.

Take a Real Ride in the Cleveland, and You'll Know What a Car It Is

The Cleveland Six, the sensation of the year among light sixes, is selling itself to thousands who use discrimination in picking out the car they want.

To attempt to describe the qualities of the Cleveland Six is no easy task. You must ride in it to know it. Take a real ride and you begin to understand that here is a better light six, very much better. It has an enclosed over-head valve motor, of exclusive Cleveland design and manufacture and tested in road work for three years before being offered the public, that gives performance unsurpassed.

A real ride will show you, better than can be told you, that the Cleveland has power and pick-up and flexibility and ease of driving that do not come with many other cars. Low-hung spring suspension and splendidly upholstered cushions wipe out the road-bumps. Beautiful body lines place the Cleveland above the usual plane in appearance. Upholstery is of genuine hand-buffed leather.

Come let us show you what a car the Cleveland is

Maxwell Stands For Economy of Transportation

Four hundred thousand Maxwell owners can testify to this fact.

Lightness and strength are the two features that distinguish the Maxwell and set it apart from other cars.

The rare steels used in the Maxwell insure that every ounce of superfluous weight is eliminated.

They lighten the burdens of the engine.

They enable the Maxwell to deliver mileage—economic mileage.

They make it possible for the Maxwell to wear—to stand abuse—to defy time—to overcome shock—to meet the moods of the careless driver.

This is the secret of the ever-growing friendship—the ever-increasing demand for the Maxwell.

FLOWERS ARE BLOOMING ON THE DESERT

It is an especially opportune time just now to visit the desert. A motorist who has been over the route to Imperial Valley via the Salton Sea frequently for several years past went as far as Mecca on March 29th and returned the following day. He reports that while there are of course some stretches that are by no means boulevards the road as a whole has probably never been better than it is now and one could scarcely find a more interesting route for a two days' outing. The climate now is just right for this trip.

The time is particularly opportune, however, because of the unusual abundance of wild flowers. Old residents of Palm Springs and Coachella Valley say they have never seen so many before. In the vicinity of Indio and not far from the date experiment station there are acres of wild verbenas, and among them many white primroses. So striking and attractive are these natural wild-flower gardens that motorists drive there from Riverside and other distant places especially to see them, and artists from Pasadena were found there painting them.

But the verbenas and primroses do not comprise all the floral offerings of the section between Banning and Mecca. A guest of the Desert Inn at Palm Springs went out flower-gathering and came back in less than two hours with specimens of twenty-seven different kinds. Not far from Mecca a rare white desert lily is just now at its best.

The shortest and best route to Mecca is by way of the Valley Boulevard to Riverside, thence up Box Springs grade, turning to the left about eight miles from Riverside, and thence via Moreno to Beaumont, Banning and Palm Springs. The total distance from Los Angeles is but little more than 150 miles, easily covered in a day.—Touring Topics.

Imperial Valley auto dealers are staging an automobile show at El Centro this week.

THE PALM CANYON DRIVE

Palm Canyon in Riverside county is one point of interest that thousands of automobile owners have overlooked, despite the fact that it is one of the most beautiful canyons in the state and has an interesting history.

It was first visited by white men in January, 1774. At that time Capt. Juan Bautista de Anza set forth from Tubac Mission, Arizona, for Monterey, California, with Indian guides who took him along the approximate route where the Ocean to Ocean highway is being constructed today.

A party from Los Angeles, traveling in a Silvertown equipped Studebaker Sedan found this canyon one of the most entrancingly beautiful spots among Southern California's many scenic attractions.

The introduction to Palm Canyon is as nearly dramatic as nature can make it. Leaving Palm Springs and following an ordinary desert road, which the officials of Riverside county have recently improved, the party found the view rather monotonous. The scenery resembled that of any other portion of the Colorado desert, save that here and there clumps of trees indicated that the stream of water flowing down from the mountains had been put to good use. There is a continual grade up to the ridge, on the top of which one can see a thatched hut.

As the machine climbed this ridge, the stillness of the desert pervaded the party. They looked back down the valley out upon the desert with the mountains in the distance. They were content to look and quietly enjoy the very desolateness of the scene. Then the car reached the top and the party, turning their backs upon the desert, exclaimed aloud at the magnificence of luxurious vegetation, stretched below them in striking contrast to the wilderness behind.

Palms—single, in clumps, in groves, thousands of palms—adorn the canyon. It is as though one had suddenly been placed in the midst of a fruitful, tropical valley.

Following a path, the party left the comfortable Studebaker at the end of the road on Hermit's Ridge and scrambled down into the canyon. A good trail leads up through the palms alongside a bubbling stream of clear water, where wonderful picnic grounds are afforded. The palms in their natural state have a long "dress" of leaves covering their trunks, like an Hawaiian dancer's garb. However, many of the palms have been "fired"—that is, this dress has been burned off. This the Indians did to make the fruit bigger and sweeter. The fruit of the palm resembles a small date, with little meat and a large seed, which the Indians ground into meal.

The hermit, whose hut was seen from the valley, has made the ridge his residence for the past ten years and claims to have been restored to health by the balmy air and perennial sunshine of Palm Canyon. He has met the high cost of living in a very simple and effective way. Instead of buying steaks, chops, fowl and other delicacies, he lives on raw nuts, fruit and vegetables. Tailor's bills never bother him, as his clothes consist of a pair of cotton trousers cut off at the knees. He goes bareheaded and scrambles barefooted over the rocks like a mountain goat.

A mile or two below Palm Canyon and to the west of it, lies Andreas Canyon, named after the sly old Indian chief whose home in a cave near the ancient Indian Village of Rincon is still a point of interest. Andreas learned the secret of obtaining "firewater" from grapes and, according to George Wharton James, who describes this section in his splendid descriptive work, "Wonders of the Colorado Desert," the intoxication of the Indians of Andreas Canyon was for a long time a great mystery to the whites in Palm Springs.

Ford

THE UNIVERSAL CAR

Full and Running Over

Our stock rooms are full of Genuine Ford Parts. We have an assortment of parts that would enable us to build either a Ford passenger car or a Ford One Ton Truck from the ground up. Then, too, those parts are Ford-made—each according to its use—so that they are exact duplicates of the original parts now in your car, and will give the same constant, hard wear.

Our shops are equipped with up-to-the-minute tools and machinery, specially designed, so that we can properly and promptly take care of your repair work—from a minor adjustment to a complete overhaul. And the mechanics who will do the work for you are men who understand the Ford mechanism and who know the Ford way to do the work.

We are Authorized Ford Dealers; we not only give Ford Service but we sell Ford cars and Ford One Ton Trucks as well. So, it is easy to understand that we have more than a passing interest in your car.

Drive to any of the following garages for Ford parts, Ford Service or Ford Cars—Come to authorized Ford headquarters and be on the safe side of dependable repairs.

CASH NEED IN HOOVER FIGHT

Money is the prime need in the campaign to elect in California a Republican delegation pledged to support Herbert Hoover for President. The organization that is fighting for Mr. Hoover is crippled by lack of funds.

Every citizen, therefore, who is opposed to the domination of politicians, and to machine rule generally, can fight most effectively with his dollars. The Hoover campaign and the cause of efficient government can best be served right now by sending cash contributions to George H. Bentley, Treasurer of the Glendale Hoover Club, 200 East Broadway.

PALACE GRAND, SATURDAY, APRIL 24

NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE

In the Superior Court of the State of California, in and for the County of Los Angeles.

In the Matter of the Estate of FREDERICK M. COCK, Deceased.

Notice is hereby given that the undersigned, D. B. Pingree, Administrator of the Estate of Frederick M. Cock, Deceased, will sell, at private sale, subject to the confirmation of said Superior Court, on or after the 27th day of April, 1920, at the office of JAMES F. MCBRYDE, 103-A No. Brand Boulevard, Glendale, California, all the right, title and interest of said deceased at the time of his death, and all of the right, title and interest said estate has acquired by operation of law or otherwise, in addition to that of said deceased at the time of his death, and all of the right, title and interest said estate has acquired by operation of law or otherwise, in addition to that of said deceased at the time of his death, in

W. C. T. U. CONVENTION

(Continued from Page 1)
them to the superintendents of the men employed that they may have credit and appreciation.

One of the interesting reports of the convention was the "press demonstration" made by Miss Adda Burch. It was in the form of a big banner headed: "A Clean Sweep." The record below showed 20,700 columns of W. C. T. U. news had been published during the year. Miss Teal, former state superintendent of publicity, was given credit for the largest number of columns of news.

and to the real property situated in the County of Los Angeles, State of California, and described as follows, to-wit:

That portion of Lots Sixteen (16) and Seventeen (17) in Block One (1) of "Westgate," in the City and County of Los Angeles, State of California, as per map recorded in Book 7, page 22 of Maps, in the office of the County Recorder of said County, described as follows, to-wit:

Beginning at a point in the Easterly line of said Lot Seventeen (17) Fifty (50) feet Northerly from the South Easterly corner thereof; thence Westerly parallel with the Southerly line thereof Ninety-four (94) feet to a point within Six (6) feet of the Westerly line of Lot Sixteen (16) in Block One (1); thence Northerly parallel with the Westerly line of said Lot Sixteen (16) Twenty-five (25) feet; thence Easterly parallel with the Southerly lines of said Lots Sixteen (16) and Seventeen (17) thence Southerly along said Easterly line, Twenty-five (25) feet to the place of beginning.

Terms and conditions of sale, cash, gold coin of the United States; ten per cent of the amount bid to be paid at the time of sale, balance on confirmation of sale by said Superior Court.

Bids or offers must be in writing and may be left at the office of James F. MCBRYDE, 103-A No. Brand Boulevard, Glendale California, at any time after the first publication of this notice and before making said sale.

Dated April 8th, 1920.
D. B. PINGREE,
Administrator of Said Estate.
JAMES F. MCBRYDE,
Attorney for the Administrator.

Miss Burch ranked second and Mrs. McCrea of Pasadena came third.

Friday Afternoon

At the afternoon session Mrs. Alie Simmons Wheeler reported for the Los Angeles Federation in a five-minute address; Mrs. Irene Morris, for the Pasadena Federation; and Mrs. Laura Hyden Boleyn for the Long Beach Federation.

The chief musical contribution was whistling numbers by Miss Margaret McKee, who gave the "Mocking Bird" and two other favorites.

The concluding and most entertaining event of the program was the Loyal Temperance Legion Review, the demonstrations by child members being directed by Mrs. Ellen A. Dayton Blair. The first demonstration was made by fourteen boys from the Strickland Home ranging in age from lads in their teens to boys of seven. They gave some characteristic recitations very well and the largest boy of the group made a talk on the evils of cigarette smoking, claiming that 40 per cent of the boys who acquire the habit in grammar school days fail to reach the High School and that their capacity for mental or physical work is greatly reduced. He cited instances where even the merchants who deal in cigarettes discriminate against cigarette smokers when choosing help and declared that in a few years the cigarette smoker would not be able to secure a position anywhere. The children of the Lucy Hayes, the "baby L. T. L. 2," made a pretty demonstration. It has been established in connection with the Church of the Nations and forty nationalities are represented in one block. The president, Cecilia Brand, made an excellent talk. It included a quartette of four girls who sang "Forward Go."

Mr. Walker of the Anti-Cigarette League, made a one-minute talk to the children of whom there were a large number in the audience on account of the L. T. L. demonstrations. He said he had spoken before 40,000 boys and girls in Southern California during the past year. "Remember," he said, "that there are five distinct poisons in cigarettes. When people know these

things they are going to hit the cigarette and hit it hard. I have seen lots of boys that started out right, but did not stick. He then told of a boy of sixteen brought before his Board for insanity. He went too far and his brain snapped. He was smoking fifty to one hundred cigarettes a day." In closing, he said: "Fight it, fellows; fight it!"

The boys and girls of Glendale who desired the organization of an

L. T. L. were asked to rise and about twenty-five stood up. Mrs. Blair directed attention of local W. C. T. U.'s to this demonstration and urged the organization of a Glendale L. T. L.

The session closed except for a final ballot or two on the assistant recording secretary, with the singing, "Work for Enforcement," to the tune of "Brighten Up the Corner."

Everybody come and learn the truth about Hoover, the American

Personals

Maurice Healey is building an addition to his house at 1202 East Colorado.

Mr. and Mrs. W. H. Love, 406 W. Vine street announce the birth of a nine and three-quarters pound boy on Wednesday.

Mrs. Ada F. Taylor has contracted with Wm. Fullerton to build a \$500 addition to her house at 216 W. Palmer Ave.

Mrs. J. A. Haines and little daughter, Luella, 350 West Harvard, spent the day, Thursday, with Mrs. C. Gury in Los Angeles.

J. E. Howes, who recently bought C. W. Ingledue's new house at 208 North Jackson, has contracted with R. B. Hammond to erect a garage for him.

Mrs. Thomas Wood of Myrtle St. is leaving on the Santa Fe this afternoon for Piedmont, Kansas, on account of the death of her sister and the serious illness of her mother.

Architect C. C. Rittenhouse has drawn plans for and work has begun on a one-story brick garage 50x100 feet to be constructed for Mattison B. Jones on the east side of Brand, between Wilson and California avenues.

Arthur Campbell is negotiating the sale of the residence in which he has been living in Los Angeles and if the transaction goes through expects to return to his home in North Glendale beside his brother, Dan Campbell.

Mrs. Charles W. Kent of Arden avenue has been confined to her home by illness for several days but is better. She is being attended by Dr. Dieterich who promises if her present improvement continues she will be out in a few days.

Mrs. Daniel Campbell of North Glendale is leaving tonight or tomorrow for Sacramento to attend meetings of the Grand Chapter of the Eastern Star and functions in connection therewith in northern cities. She expects to be gone two or three weeks.

Mrs. M. R. Bedlington, 350 West California, entertained with a dinner party last Tuesday, for her son, Calvin H. Spaulding, the occasion being his eighteenth birthday. The guests were all members of the family, and in addition to the course dinner, a large birthday cake was provided.

Miss A. M. Harrison of 130 South Franklin Court was hostess at a delightful luncheon in honor of some of the officers of the W. C. T. U. yesterday noon. The guests were Mrs. Ellnor Blair of Los Angeles, Mrs. I. Hatch, wife of the mayor of Long Beach, Mrs. Hull, Mrs. J. D. Phelps and Miss E. Poorman, a missionary.

Rev. C. A. Cole has just closed a busy week in the interests of the new School of Christianity to be located on Vermont avenue near U. of C. He visited Santa Barbara, Pasadena, Orange, Long Beach, San Diego and Los Angeles, speaking at each place, and secured pledges for several thousand dollars for the college fund.

H. C. Tomaw and wife, who sold their home at 606 West Elk avenue a few weeks ago and expected to start on their return to the old "stamping ground," Clark county, Ill., where Mr. Tomaw was born and lived until the Civil War, a week ago Thursday, were held up by the freight embargo, which prevented them from shipping their furniture. They expect to get away some time next week.

SOME WAG

pasted up this fake prospectus in the window of a bank:

"We're starting a cat ranch in California with 100,000 cats. Each cat will average twelve kittens each year. The cat skins will sell at thirty cents each. One hundred men can skin 5,000 cats a day. We figure on a net profit of \$10,000 a day.

"To feed the cats, we shall start a rat ranch next door with 1,000,000 rats. The rats will breed twelve times as fast as the cats. So we'll have four rats to feed each cat and we will feed the rats the carcasses of the cats after they have been skinned. The skins of the cats will cost us nothing.

"Shares in this epochal enterprise are now selling at five cents each, but the price will go up soon. Invest now while opportunity knocks at your door.

"California Ranching Co." The joke was on the wag, however, for within four days sixty people, as deficient in horse-sense as they were in a sense of humor, entered the bank to make inquiry where they could buy the stock of the C. R. C.

This is a sample of the stuff which people are really biting at these days. In fact many of the bonds and stocks being sold haven't as plausible a proposition as this. Isn't it time that we life insurance men were on the job, protecting the families of such men from such suckers as these?

W. B. KIRK

109 N. Brand Blvd.

Every man thinks he knows how to govern himself and is anxious to attempt to govern other men.

Architect Alfred F. Priest is preparing plans for a two-story frame private garage, to be erected in N. Glendale for M. L. Parker. The second story will have a living suite. The exterior will be white plastered and the foundations of concrete. Mr. Priest has also prepared plans and is now taking bids for a combined city hall and public library building for the City of Ventura. It is to have two stories and a basement.

Architect Arthur G. Lindley has been commissioned to prepare plans for a new Methodist Church building at Bisbee, Arizona, to cost about \$60,000. It will be of brick or hollow tile construction with plastered exterior and will contain an auditorium seating 900 persons, graded Sunday School department rooms, gymnasium, banquet and social rooms, showers, etc. It will have steam heat and a modern ventilating system.

MAC MILLAN TO BUILD HOME

J. Mac, MacMillan of 350 Hawthorne has been trying for months to build a new home but has been so busy with other people's houses that he could not begin his own. But he has the decks cleared for action at last and yesterday took out a permit for the new residence, which is to be of six rooms and located at 350 West Broadway. The estimated cost is \$4000.

Why this Laundry merits your consideration

Forty Glendale people are employed at the Glendale Laundry. They earn their money here and spend it here.

The management of the Glendale Laundry takes an active interest in every form of civic progress. Glendale people patronize the Glendale Laundry to a flattering degree.

These three points make the Glendale Laundry a thoroughly local institution.

Does Such a Concern Deserve Your Patronage?

Bonds Nos. 31 to 40, inclusive, each One Thousand Dollars, to run 4 years.	4 years.
Bonds Nos. 41 to 50, inclusive, each One Thousand Dollars, to run 5 years.	5 years.
Bonds Nos. 51 to 60, inclusive, each One Thousand Dollars, to run 6 years.	6 years.
Bonds Nos. 61 to 70, inclusive, each One Thousand Dollars, to run 7 years.	7 years.
Bonds Nos. 71 to 80, inclusive, each One Thousand Dollars, to run 8 years.	8 years.
Bonds Nos. 81 to 90, inclusive, each One Thousand Dollars, to run 9 years.	9 years.
Bonds Nos. 91 to 100, inclusive, each One Thousand Dollars, to run 10 years.	10 years.
Bonds Nos. 101 to 110, inclusive, each One Thousand Dollars, to run 11 years.	11 years.
Bonds Nos. 111 to 120, inclusive, each One Thousand Dollars, to run 12 years.	12 years.
Bonds Nos. 121 to 130, inclusive, each One Thousand Dollars, to run 13 years.	13 years.
Bonds Nos. 131 to 140, inclusive, each One Thousand Dollars, to run 14 years.	14 years.
Bonds Nos. 141 to 150, inclusive, each One Thousand Dollars, to run 15 years.	15 years.
Bonds Nos. 151 to 160, inclusive, each One Thousand Dollars, to run 16 years.	16 years.
Bonds Nos. 161 to 170, inclusive, each One Thousand Dollars, to run 17 years.	17 years.
Bonds Nos. 171 to 180, inclusive, each One Thousand Dollars, to run 18 years.	18 years.
Bonds Nos. 181 to 190, inclusive, each One Thousand Dollars, to run 19 years.	19 years.
Bonds Nos. 191 to 200, inclusive, each One Thousand Dollars, to run 20 years.	20 years.
Bonds Nos. 201 to 210, inclusive, each One Thousand Dollars, to run 21 years.	21 years.
Bonds Nos. 211 to 220, inclusive, each One Thousand Dollars, to run 22 years.	22 years.
Bonds Nos. 221 to 230, inclusive, each One Thousand Dollars, to run 23 years.	23 years.
Bonds Nos. 231 to 240, inclusive, each One Thousand Dollars, to run 24 years.	24 years.
Bonds Nos. 241 to 250, inclusive, each One Thousand Dollars, to run 25 years.	25 years.

That for the purpose of holding said election, the said Glendale Union High School District shall be and it is hereby divided into six High School bond election precincts, designated as follows, to-wit:

Glendale City Precinct No. 1, Crescenta Precinct, Eagle Rock City Precinct, Glorietta Precinct, Glendale City Precinct No. 2, Glendale City Precinct No. 3. The said precincts, with their respective polling places and officers of election, shall be as follows:

CRESCENTA PRECINCT

Shall consist of all that portion of the Glendale Union High School District included within Crescenta School District. The polling place therein shall be the Crescenta School, and the officers of election shall be as follows:

Inspector: Rose G. Nettleton.

Judges: Mary B. Woodruff, Elizabeth Darlington.

GLENDALE CITY PRECINCT NO. 1

Shall consist of all that part of Glendale City School District (being part of the Glendale Union High School District) bounded as follows:

Beginning at the intersection of the westerly boundary line of said Glendale City School District with the produced center line of that part of Windsor Road lying west of Columbus Avenue; thence southeasterly, northeasterly, northerly, easterly, northerly, easterly, and northerly, following the boundary line of said Glendale City School District along all its various courses to its intersection with the center line of Rock Glen Avenue; thence westerly along the center line of Rock Glen Avenue to the center line of Verdugo Road; thence southerly along the center line of Verdugo Road to the center line of Windsor Road; thence westerly along the center line of Windsor Road to the east line of Brand Boulevard; thence southerly along the east line of Brand Boulevard to the produced center line of that part of Windsor Road lying west of Brand Boulevard; thence westerly along said produced center line and the center line of the last mentioned part of Windsor Road to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Windsor Road lying west of Columbus Avenue; thence westerly along said last mentioned center line of Windsor Road and its prolongation to the point of beginning.

The polling place therein shall be at No. 1021-A South Brand Boulevard in the City of Glendale and the officers of election shall be as follows:

Inspector: Mai Henry.

Judges: Cora Hickman, Nellie B. Simpson.

GLENDALE CITY PRECINCT NO. 2

Shall consist of all that portion of Glendale City School District (being part of the Glendale Union High School District) bounded as follows:

Beginning at the intersection of the westerly boundary line of said Glendale City School District with the produced center line of that part of Windsor Road lying west of Columbus Avenue; thence northwesterly along said westerly boundary line to its intersection with the produced center line of that part of Doran Street lying west of Columbus Avenue; thence easterly along said produced center line and the center line of Doran Street to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Doran Street lying just east of Columbus Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Central Avenue; thence northerly along the center line of Central Avenue to the center line of that part of Doran Street lying east of Central Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Howard Street, north of Doran Street; thence northerly along the center line of said Howard Street and its prolongation to the northerly boundary line of said Glendale City School District; thence easterly and southerly, following the boundary line of said Glendale City School District along all its various courses to the center line of Rock Glen Avenue; thence westerly along the center line of Rock Glen Avenue to the center line of Verdugo Road; thence southerly along the center line of Verdugo Road to the center line of Windsor Road; thence westerly along the center line of Windsor Road to the east line of Brand Boulevard; thence southerly along the east line of Brand Boulevard to the produced center line of that part of Windsor Road lying west of Brand Boulevard; thence westerly along said produced center line and the center line of said last mentioned part of Windsor Road to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Windsor Road lying west of Columbus Avenue; thence westerly along said last mentioned center line of Windsor Road and its prolongation to the point of beginning.

The polling place therein shall be the Glendale Union High School, and the officers of election shall be as follows:

Inspector: J. E. Henderson.

Judges: May C. Church, Mary E. Shropshire.

GLENDALE CITY PRECINCT NO. 3

Shall consist of all that portion of the Glendale City School District (being part of the Glendale Union High School District) bounded as follows:

Beginning at the intersection of the westerly boundary line of said Glendale City School District with the produced center line of that part of Doran Street lying west of Columbus Avenue; thence easterly along said produced center line and the center line of Doran Street to the center line of Columbus Avenue; thence southerly along the center line of Columbus Avenue to the center line of that part of Doran Street lying just east of Columbus Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Central Avenue; thence northerly along the center line of Central Avenue to the center line of that part of Doran Street lying east of Central Avenue; thence easterly along the center line of the last mentioned part of Doran Street to the center line of Howard Street, north of Doran Street; thence northerly along the center line of said Howard Street and its prolongation to the northerly line of the Glendale City School District; thence westerly and southerly, following the boundary line of said Glendale City School District along all its various courses to the point of beginning.

The polling place therein shall be the Central Avenue School, and the officers of election shall be as follows:

Inspector: Oscar M. Newby.

Judges: Beryl Cross, Nora S. Burr.

The said Inspector and Judges above named, being competent and qualified electors of Glendale Union High School District, shall conduct such election at the time and in the respective places above set forth, and shall make return of said election pursuant to law. Each qualified elector of said Union High School District shall be entitled to vote only in the High School bond election precinct of which he is a resident.

IN WITNESS WHEREOF, we have hereunto set our hands this 15th day of April, 1920.

HARTLEY SHAW,
C. O. PULLIAM,
A. L. BRYANT,
BLANCHE A. GARDNER,
DAN CAMPBELL.

High School Board of Glendale Union High School District of Los Angeles County, California.

VOTERS TO DECIDE SITE

At the time of preparing the call for the election to vote bonds to the amount of \$250,000, the Board of Trustees of the Glendale Union High School District adopted the following resolution:

WHEREAS, this Board has called an election to be held in Glendale Union High School District May 10, 1920, to vote on the question of issuing bonds of said district in the sum of \$250,000.00; and,

WHEREAS, it has come to the attention of the Board that some electors of said District propose if said bond issue is carried that the present high school site should be abandoned and land acquired at some other place for a new site, and other electors of said district are opposed to said proposition, and this Board desires to know the opinion of the majority of the electors thereon,

NOW, THEREFORE, BE IT RESOLVED that the Board hereby calls an election to be held in Glendale Union High School District on May 10, 1920, at the same voting places, at the same time and by the same officers of election as the above mentioned bond election, and hereby submits to the qualified electors of said District at said election the following question: "Do you favor the retention of the present location of the Glendale Union High School as the permanent site of the high school with such enlargements of the grounds as may be necessary for that purpose?" Said question shall be printed on the ballots used at said election hereby called and after it shall be the words "yes" and "no" with voting squares in which electors shall indicate their choice by marking a cross; upon said ballots shall also be printed the following part of this Resolution:

BE IT RESOLVED that this Board hereby agrees and pledges itself in the event that said bonds in the sum of \$250,000.00 are voted, that it will be governed in the matter of the high school site by the majority of the votes cast upon the question of retention of the present site—that is, if the majority of the votes cast are in favor of retention of the present site, this Board will proceed to acquire the block of land situated immediately east of the present site for enlargement of the grounds and will construct suitable buildings for the use of the high school, including a class room building, a heating plant and a girls' gymnasium or as many thereof as can be constructed out of said bond issue and such temporary accommodations as may seem necessary pending the completion of permanent buildings; and if the majority of votes cast are against retention of the present site this Board will proceed to acquire a new site for the high school at some suitable location to be chosen by the electors of the District at a subsequent election, and will also construct on the present site such temporary buildings or additions or alterations of the present buildings as may be necessary to accommodate the school until new buildings can be built on the new site, estimated to be about five years, and any surplus of the bond issue remaining after these purposes are carried out will not be expended until the new site is to be improved.

Y. M. C. A. GROUPS

BOYS OF PX AND TRIANGLE CLUBS ENJOY LONG HIKES

Last Saturday some of the boys who are members of the three PX Clubs of the Cerritos Ave., Central Ave. and Pacific Ave. Schools together with Mr. Williamson, the Y. M. C. A. secretary, went for an all-day hike, through the Los Angeles River bottoms to Griffith Park, up over old Bee Rock to the summit of Mt. Hollywood. When noon time came they found a sure way to satisfy those mountain climbing appetites by having a fire and a weiner bake. Even the dog, "Ben," got filled up on "hot dogs." The trip back went down through Hollywood and home via the Los Feliz Road, all spending about an hour down by the river. The rule was "hang your clothes on a hickory limb but don't go near the water." Here are some of the boys who were in the party: Francis Morgan, Harold Begg, Willie Halstead, Stewart Richardson, Fred Sprenger, Donald Hamilton, Russell La Velle, Carroll Tohl, Nathan Finch, Frank Connor, Geo. Peterson, Geo. Butterly, Russell Werdin, Miles Van Fleet, Robert Grant and "Ben" was along, too.

All the Y. M. C. A. Clubs of the District are planning week-end trips up the San Gabriel Canyon to our great old cabin and numbers of short hikes for Saturdays. The Tropico Triangle Club had to postpone their trip this week on account of the illness of Mr. Williamson, but will sure go next week. W. G. Boyd, with the two Triangle Clubs from the Intermediate Club, went up the Canyon and had their regular meeting around the camp fire.

GRADE MOTHERS MEET

As a forward movement to promote acquaintance and co-operation between mothers of pupils in the Cerritos Avenue School, a grade mother has been named for each grade in the school who will act as a sort of social chairman and arrange for informal gatherings of the mothers of pupils in that grade. The first of these meetings took place Thursday afternoon when Mrs. T. Adams invited the mothers of pupils in the fourth grade to meet with her at the school. Matters of mutual interest and benefit in the educational world were discussed and a very pleasant afternoon was spent.

Glendale's New Hospital

We have purchased ample grounds in the Piedmont Park Tract for this institution. This location was selected because it is the highest land in Glendale, above the fog, it faces this park and is isolated from all traffic noise.

The construction will be one-story white cement, and contain the very latest equipment. In fact, it will be the most modern hospital in Southern California. Glendale needs this institution. We solicit your support. You can make payments by the month or quarterly, the same way you paid for your Liberty Bonds.

Subscriptions being taken at 131 South Brand, or if you desire further information, call Glendale 408.

Christian Science Lecture by Dr. Walton Hubbard, C. S. B.

A large audience gathered at First Church of Christ, Scientist, Friday evening, to listen to a lecture on the subject of Christian Science by Dr. Walton Hubbard, C. S. B., of Spokane, Wash.

The lecturer was introduced by Mr. Dale G. Vaughan, First Reader of the church, who said:

The religion of Christian Science is practical and it holds first place in the affections of its adherents. It teaches them that God is Love, Truth, Life, and all power; that sickness, sorrow, poverty and sin are not real and do not belong to God's man made in His image and likeness.

So when the Christian Scientist is confronted with a problem, be it one of health, business, or disposition, he turns to his religion for its solution.

The practicability of this religion is attracting the attention of thousands of honest seekers for truth, and, in order that they may procure reliable information, there has been provided The Board of Lectureship of The Mother Church, The First Church of Christ Scientist in Boston, Massachusetts. It is my privilege to introduce to you a member of that Board, Dr. Walton Hubbard, C. S. B., of Spokane, Washington.

Dr. Hubbard in his lecture said:

Had some great material legacy been given to you and you had learned under what conditions you might appropriate it, I am sure that you would feel a great sense of happiness and expectancy. And you would be willing and eager to do all that is necessary in order that you might quickly receive that which you believed would prove so great a blessing.

There is a gift which divine Love has given you. It is greater by far than all the treasure in the storehouses of the world. It gives to you what money cannot buy, for not only does it feed and clothe you, but it brings you bodily health, and peace and joy such as you have never known. This wonderful gift is the understanding and power which comes to you when you recognize your true relationship to God, and which when applied to human conditions brings health and harmony.

Divine Law Available

The explanation of God's law and its availability to all mankind was taught and demonstrated by Jesus the Christ, but for many centuries it has been maintained that the major portion of the reward for Christian living is to come at some future time, as if one has unlimited and immediately available funds in the bank but has been made to believe by his friends that the rules of the bank are such that he cannot use the money for many years to come. Christian Science furnishes the rule by which the power that Jesus used in accomplishing his wondrous works is made immediately available, and because its beneficent power can make over and bless every phase of our material existence it is the most important subject that can come to our consideration. The wisdom of this world has failed not only to heal from discord and sin but to heal from disease. And it will continue to fail in its treatment of disease until it is recognized that sickness is sick thought expressed on the body, and that sick thought is cast out through spiritual understanding. The wonder is that the fact that disease is mental has been hidden from the world for so long, and that human thought can continue to cling to material remedies in spite of their very apparent record of failure. That the patient must have faith in the physician in order to get results is quite generally admitted. Notwithstanding this admission, the human mind is so material in its thinking that it ignores the mental aspect of disease and continues its futile search in the material. In his daily practice the physician comes in contact with symptoms and conditions that cannot be accounted for materially. The moment one assumes that these are mental manifestations and looks for confirmation of this assumption he finds it on every hand.

During the time that I was studying medicine and before I actually engaged in the practice, the statement was made to me on several occasions and by different persons that any effect which followed the use of medicine was not material but mental. The idea seemed quite impossible to me at the time, still when things occurred that were of such a nature that they could not be accounted for on any material basis I remembered what had been said and finally I began to see that some things at least were mental. This investigation went on and finally resulted in the conviction that all disease is mental and that any result which has ever been obtained has come about as a mental manifestation. Where before I saw nothing but material conditions I could now see the mental factor everywhere. In my own experience I have seen a person who suffered from a condition for which I prescribed at various times, fail to receive any relief from one sort of tablet while the administration of a tablet containing just half the quantity of the same drug but with a different color and taste was always followed by most marked results. It has been my experience also that those people who believed that it took strong medicine to cure them were much more apt to be quickly benefited if the medicine through its disgusting taste impressed them as being very strong.

On the other hand I remember one person who thought he was unusually susceptible to the supposed action of drugs. No matter how minute the quantity of drug which was given him his illness was immediately very greatly increased, yet he

insisted that he must have medicine. Powders that had no more medicinal action than chalk would produce this aggravation as well as medicine, so it was evident that this too was mental.

Material Methods Fail

Anyone who goes back into the history of material medicine is impressed by the fact that for practically every diseased condition there has been a continual succession of drugs, one following the other; and it is always claimed for the last one, with the greatest enthusiasm and positiveness that it certainly does heal the disease, and in support of this contention there may be offered the records of many cases that have been cured. Human thought is not much given to retrospection along this line. If it were it would remember that all the drugs that have followed each other in the treatment of disease, and have been successively discarded, have had the same glowing record when they were first used. The reason for this is that it is not the drug but the belief in it which accomplishes the healing. Those who discover and bring forth a remedy are strong in their belief that it will cure, because the remedy is the outcome of a definite conviction as to how the disease should be treated; so they obtain marked results, while those who prescribe the same drug later on have no such deep conviction, and because of their previous experience may be even mildly skeptical. This state of thought brings about failure.

Because the new remedy with its short-lived record of success always takes the place of the old with its final record of failure, these successive changes are announced in the name of progress. The extent of the failure is seen in the fact that every material thing, vegetable, mineral, and animal, which imagination conceived to have a medicinal action has been tried. The ignorance of the medical methods of a hundred years ago is laughed at by the men who seriously believe that extracts from calves and pigs can make them better men.

Now the history of every material method including surgery is the same as that of drugs. The results which come are according to the belief which is entertained about them. One has only to glance through the medical journals to see that physicians themselves are condemning many of the operations and methods which the world at large has been taught to believe would heal them. Almost every one can recall operations and methods which were quite the rage a few years ago but are seldom heard of to-day, and it is perfectly safe to predict that the surgical procedures which seem successful to-day will be discarded for others to-morrow.

The casual observer may be made to believe that these operations were reasonably successful and were only abandoned because other and better operative methods had been discovered. Investigation will show, however, that the operation was most successful during its early history, and that something detrimental—some disturbing after effect—appeared with greater and greater frequency until the method was abandoned for another so new that it had not had time to acquire a record of failure.

Christian Science Logical

In what has been said there is no disposition to criticize the medical profession or to minimize whatever of good it may be accomplishing, but it is no kindness to them to refrain from stating the truth. The greatest blessing that can come to both the doctor and the world is to learn why it is that no material method is of permanent avail and that it is God who not only "forgiveth all thine iniquities" but "who healeth all thy diseases."

In my search for the best mental means with which to heal the mental conditions which produced disease, Christian Science came in for its share of investigation. It was the one method which I thought I did not want because it would not mix with any of my material thinking, but it was the only method I could accept because it was the only one which maintained the logic of its reasoning. When human thought is filled with fear and belief in disease, no human statement to the contrary will suffice, and the thought which heals must be so evidently the divine idea, that it comes to human consciousness as the very voice of God to destroy and dispel the error. Such a system is Christian Science and it only asks to be known by its fruits.

Its Discoverer and Founder

It is essential in undertaking the study of Christian Science that one should know something of the one to whom it was revealed, and some of the factors which led to its discovery. The revelation came to Mrs. Eddy because the particular qualities of thought which she possessed made it inevitable. She was always of a deeply religious nature. In her secular studies the trend of her thought is shown in the fact that her favorite studies were natural philosophy, logic, and moral science, together with Hebrew, Greek, and Latin. There was in all that she did a persistence that is very striking. A study of her life shows that every material thing which might have brought some sense of satisfaction and peace crumbled to ashes within her grasp, yet she never faltered nor lost faith that God would show her the way out if she persisted with sufficient diligence. She investigated every material system of healing and finally decided that all causation must be mental, yet it required twenty years of effort before

she really understood that all causation was Mind, God, and a number of years more before it had unfolded with sufficient clarity to be given to the world. So Christian Science came as a result of patient, unflinching effort to know God's law, and to the one who possessed the qualities of thought which made its revelation humanly possible.

Because the study of Christian Science has enabled us to know the power and love of God and to recognize and appreciate much more fully what the Master did for us in his demonstration of this power and love, we are grateful to Mrs. Eddy for having made it possible. There is no human gift that can compare to the gift of spiritual understanding, for it brings joy into every phase of living. Those who have not felt its beneficence cannot understand why Christian Scientists express so great appreciation of Mrs. Eddy because they cannot conceive of the greatness of the gift, while those who know something of the richness of it wonder that so often we forget to be grateful.

Spiritual Growth

It is the common experience of those who study Christian Science that there comes to them a much larger, clearer understanding of God than they had before. In her writings Mrs. Eddy quite properly and with Biblical precedent uses a number of terms for the Supreme Being each one of which expresses some particular quality of the divine Principle. It is interesting and helpful in studying what she has written to stop and consider just why a particular term for God is used in any given sentence. It will invariably be found that the word chosen not only explains her meaning better than any other, but that by its use one's understanding of Life, or Spirit, or of whatever synonym for God has been used, is increased, and one is conscious of spiritual growth.

In discussing the nature of God let us begin with the fact that God is Mind, because by recognizing this we are enabled to see more clearly the inseparable relationship which exists between God and man, and to see that because of this relationship man manifests the qualities of God, of Mind, and nothing else.

It is generally admitted that there is a Supreme Being and that he is omnipotent and omniscient. To say that God is omniscient, all-knowing, is stating that God is infinite Mind, for Mind alone knows, understands. When Daniel said, "Blessed be the name of God for ever and ever: for wisdom and might are his," and when Paul said, "To God only wise, be glory," they both admitted infinite Mind which alone possesses infinite wisdom and makes it manifest.

Divine Mind and Divine Idea

In order that we may better understand the operation, the activity, of infinite Mind let us illustrate the divine Mind by using the ordinary conception of a human mind as an example. You say your friend has a fine mind. You say you know this because he has many fine ideas which he expresses. You have never seen his mind but you have known the expression of it in ideas. If he never moved a muscle, never spoke a word, you would rightly conclude that there was no mind there. So a mind to be called a mind must be filled with ideas, and an idea by virtue of being an idea must be expressed. It is impossible to conceive of a mind filled with ideas, yet unexpressed; for a mind with no expression is not a mind but a blank. How do you know that a rock has no mind and no ideas? Why simply because it has no expression, for where there are ideas there is expression. The infinite Mind therefore, is filled with an infinite number of ideas or thoughts, which must be expressed, and the activity, the expression, the manifestation of these ideas constitutes man and the universe. God's ideas express Him in countless spiritual forms which "range from the infinitesimal to infinity, and the highest ideas are the sons and daughters of God." As God's ideas we exist in Him and because we exist in Him the Scriptures so declare that "in him we live, and move, and have our being."

There is a further quality of an idea which it will be necessary for us to consider. An idea has no ability to do anything or to be anything except as the idea of the mind in which it exists. It cannot change itself and so become more, or less, or different, than mind intended it should be, because it has no volition of its own and must of necessity express exactly what mind intends it should express. For example: If you have a thought of love for your neighbor, this idea cannot get away from you and change itself into a thought of hate. The ideas in Mind must of necessity express exactly what Mind intends they should express. Now the real man is, as we have shown, the perfect idea of infinite Mind, and has only divine volition. He has therefore no ability to choose to do evil or to be sick, nor can he ever become separated from the Mind which contains him. Man, then, God's idea, God's image and likeness, has all the qualities of God, and not a single quality that is not of Him. He is therefore healthful and holy; perfect, spiritual, and immortal.

What are these qualities which man as the idea of infinite Mind must manifest? The various terms for God define His nature, and every synonym is used because it expresses some quality of Deity which was not so readily apparent in any other term. Life, Truth, Love, Soul, Spirit, Principle, Father-Mother, are but other terms for Mind, each expressing its own peculiar character yet

readily interchangeable with any other term, so that it is just as correct to say that man is the idea of Life or of Love as to say that he is the idea of Mind.

Life, Truth, and Love are the three terms that together express Mind most completely, and man who is Mind's idea expresses Life in perfect, healthful, immortal existence, expresses Truth in his manifestation of spiritual being, which alone is real and true, and expresses Love in the infinite manifestation of the goodness of God.

Unreality of Matter

Because it is true that man is the idea of infinite Mind he cannot be material, and this material body will have to be accounted for in some other way. Matter seems very real to the human mind, yet the deepest material thinkers maintain that matter has no existence in and of itself. They say that it is simply a manifestation of law. Our education has been such that we have accepted any material object such as iron, or wood, or stone, to be very real and substantial and having this reality and substantiality within itself. It can readily be seen that the seeming substantiality of a piece of iron is not within the iron, for if the material laws of cohesion and attraction which bind the atoms and molecules together, the law of gravitation which gives the iron weight and the various other laws which go to make up its material appearing were removed the iron would vanish into nothingness. So these material thinkers see and admit that matter is simply a manifestation of material thought, but they go on with a line of thought which maintains that these material laws proceed from the Infinite Being.

Now Christian Science agrees with them in admitting that matter is simply an expression of thought but denies absolutely that this thought is of God. On the contrary it maintains that the material man and the material universe are expressions of beliefs that are counterfeits of the true ideas. On page 60 of "Miscellaneous Writings," Mrs. Eddy has said that "every creation or idea of Spirit has its counterfeit in some matter belief." All the beliefs which are termed material laws, the beliefs known as sin, sickness, and death, the belief in a material man and a material universe are counterfeits of the spiritual creation. These various beliefs are not of God because they are contrary to His nature. The material man manifests sin, sickness, and materiality, which are the direct opposites of those qualities of health, holiness, and spirituality, which the real and spiritual man must inevitably manifest as the image and likeness of God. The material man is therefore but a counterfeit, an expression of material belief and not of that truth which is God.

It is not maintained that we have been able fully to demonstrate that matter is unreal, but thousands have been able to annul what are thought to be unchanging material laws through the recognition of the law of Spirit. Now to break and annul any of the laws of matter through the application of spiritual law, proves that they can all be overcome when we understand God's law more fully. For the present we apply our understanding of the law of Love to those material conditions of sickness and sin which trouble us most and which we most clearly see are no part of God's creation.

Out of Matter Into Spirit

In beginning the study of Christian Science one need not trouble about the doctrine of the unreality of matter. The vital thing is to learn more about God. As our spiritual understanding increases, one after another of our material beliefs is seen to be false, and healthful material conditions and harmonious mental conditions are brought about through our righteous thinking, and we are encouraged to press on till we shall have completely demonstrated the unreality of matter.

We get rid of the belief in the reality of matter only by degrees; but the destruction of any single diseased condition by mentally unseeing it is proof that disease is mental, and falsely mental. If it were not it could not be changed by correct thinking. Every physical healing resulting from Christian Science treatment is evidence not only that disease is mental but that matter itself is but an expression of material thought. Entirely apart from the conclusions deduced from Christian Science there is ample evidence that disease is mental. There are many authenticated instances of persons who have been instantaneously freed from long established infirmities through some sudden mental shock such as fire or lightning. A mental shock could not destroy disease unless the disease were in human consciousness to be destroyed. Many peculiarities about disease which are readily explainable from a mental standpoint are accounted for materially through the most fantastic flights of speculation.

Material Beliefs Deceive

Since the advent of the germ theory of disease there has been a constant effort to include as many diseases as possible in this category. The very fact that the previous conviction of the cause of a disease could be so readily discarded for the belief that germs were the offenders shows how hesitant the world should be in accepting any conclusion along this line.

Some investigators became convinced that certain microscopic forms of vegetable life which they found present in disease were the

cause of it. They conducted experiments which to them seemed to prove conclusively that this was true. The foundation of their theory was that each disease was produced by a different germ; that is that the pneumococcus produced pneumonia, the tubercle bacillus tuberculosis, and so on. A few of these germs were such common everyday sort of vegetables that they were present no matter what the disease and so they did not count very much, but there were a dozen or so that were sufficiently select to be accounted the cause of as many diseases. Unfortunately there are many diseases that seem contagious or infectious, but there are not enough varieties of germs to go around. No suitable germ has been found for many of the diseases which are presumed to be caused by them, and this failure is often accounted for by maintaining that these microscopic growths are so small that the most powerful microscope fails to reveal them—a most accommodating theory. To add to the confusion it is now asserted that the pneumococcus which was presumed to cause pneumonia is not the only germ which produces it but that there are several others. And these germs are found in as great numbers in the mouth of a healthy person as in that of a sick one, so that it would seem to the unprofessional observer that it might just as well be argued that the healthy person's health is due to germs as to maintain that the sick one's sickness is caused by it, since the same germs are present both in sickness and health.

Moreover, the germ theory could only be established by maintaining that there is just one particular germ for each disease, causing its peculiar train of symptoms, for in no other way could the individual characteristics of the disease be accounted for. But once having established the belief that germs produce disease and finding repeatedly that the right one was not present, it was necessary to maintain that some other germ was the offender, in spite of the fact that this offers the basis for disproving the whole germ theory, because it is an admission of the exact opposite of the foundation on which it rests.

Now many physicians are beginning to recognize the difficulty in which they find themselves; the confusion and contradiction of it all. They are beginning to state that it is probable that germs do not cause disease after all, because one after another of the most fundamental conclusions about them are being shaken.

The things that seemed amply proved a few years ago are now proving to be false. Thousands of cattle, comprising choice herds of milch cows, have been destroyed because bacteriologists "knew" that they had tuberculosis and were giving it to humanity, yet now they "know" that cows never caused a single case of human tuberculosis. And anyone who responded to tuberculin as a test for tuberculosis was branded as having it, although now it is found that 95 per cent of well people respond to this test and the healthier they are the more vigorously do they respond.

The more recent history of disease—the apparent control of some contagious condition on the one hand and the uncontrollable epidemic on the other—is baffling to the materialist but an open book to anyone who has some degree of spiritual understanding.

Results of Wrong Thinking

All the varied beliefs in disease may be likened to a river of material thought. At one time it was a wide and shallow stream spread out over a great breadth of materiality, for there were many supposed causes and conditions regarding it. An ineffectual effort was made to stop its flow entirely by a dam composed of all the material curative measures in use. A constant effort was made to stop the leaks and repair the breaks which the beliefs in sickness made in the dam, with whatever was believed would best serve, whether it was medicine, or climate, or diet, or some other so-called curative measure. The total amount of sick beliefs that were going over the dam was not lessened at all, but they did not often break through very violently in any one place. As time went on the beliefs changed; the river became narrow and deep. Its source—the beliefs in disease—had not grown less, but the channel of thought through which it flowed was narrowed down so that it covered less ground, because the many and varied beliefs regarding the cause of disease had in most instances given way to the belief in germs. The dam still obstructs the flow of the stream and the beliefs in disease break through as before. The belief in germs breaks through perhaps in the form of diphtheria, but there is a comparatively strong belief that there is material on hand which will stop this difficulty. Then perhaps the germs break through in typhoid, but here too there is material which at this time is believed in with sufficient confidence to stop the flow. But finally the belief in germs breaks through as influenza or pneumonia, where there is no material belief which is sufficiently strong to stop it and it flows until it is down to its normal level.

It is inevitable that just so long as the world builds up its belief in disease that disease will be manifested. It may delude itself into thinking it is making progress by apparently checking some one disease, but the total manifestation is not lessened in the least.

The only way to be rid of disease

is to stop it at its source. The beliefs from which it proceeded must be replaced by spiritual understanding. Then shall we see in place of this stream of sickness and death the river of Life which John saw. "And he shewed me a pure river of water of life, clear as crystal, proceeding out of the throne of God and of the Lamb. In the midst of the street of it, and on either side of the river, was there the tree of life, which bare twelve manner of fruits, and yielded her fruit every month; and the leaves of the tree were for the healing of the nations." Not material medicine but the leaves of the tree of Life, which is watered by the river of Life, which proceeds from the throne of God, has God provided for our healing.

The Bible Revealed

Because Christian Science is the statement of the divine laws of Life, Truth, and Love, which Jesus taught and demonstrated so many centuries ago, the spiritual understanding gained through its study unfolds the Scriptures in a most marvelous way. Language has developed down through the ages so that we now have terms which were not in use in Bible times and which are particularly helpful in teaching spiritual facts. One of these is the word mind. When the Old Testament was written there seems to have been no such word in use and where this word is found in our King James Version the original is invariably some word like "breath," or "mouth," or "heart."

In the New Testament, written hundreds of years later, the words which are translated mind are from a great variety of words, none of which seem to have the exact meaning which we give to it.

John's Understanding of Truth

The Apostle John had an unusually clear understanding of the Master's teaching. We find that he begins his Gospel with a statement of the fundamentals of Christian Science, and although the word mind is not used, his argument is that all that is real is a manifestation of thought. He says, "In the beginning was the Word, and the Word was with God, and the Word was God." This term "the Word" is from the Greek Logos, which means (1) an idea or concept, and (2) the expression of that idea. Now no idea could have existence apart from mind, so that John's statement coincides exactly with Mrs. Eddy's statement that "All is infinite Mind and its infinite manifestation" (Science and Health, p. 468).

Moreover John specifically denies that matter is of God when he says that without the Logos "was not any thing made that was made." This word "made" is used hundreds of times in the New Testament and never in the sense of "to make" or "to create" but means a present activity; that is, to come, or to come to pass. The divine manifestation is then simply the expression of spiritual ideas and must of necessity be altogether spiritual. Isaiah corroborates this conclusion by saying, "All flesh is grass, and all the goodness thereof is as the flower of the field: . . . The grass withereth, the flower fadeth; but the word of our God shall stand for ever." Not flesh, but God's spiritual idea, the word, is real and endures. And the Master while maintaining that the kingdom of God is within you—that heaven is a state of consciousness—also maintained that flesh and blood could not enter. So then spiritual consciousness excludes matter.

It is quite frequently maintained that Christian Science denies the divinity of the Christ, although this is absolutely contrary to the fact. Consistent with its teaching that God is Mind and that man is God's perfect idea, it maintains that the Christ is "the divine manifestation of God, which comes to the flesh to destroy incarnate error" (Science and Health, p. 583). John defines the Christ in the statement, "the Word was made flesh." The "Word"—that is the divine idea—"was made flesh"—not created flesh, for this word "made" is never used in that sense, but come to the flesh. Christian Scientists heartily agree with this thought, they gratefully acknowledge that Jesus manifested the Christ, the divine idea, revealing in his words and works the true nature of God and man. We can all manifest in some degree the divine idea which Jesus manifested, for "of his fulness have all we received." To the degree that we really understand God do we demonstrate the Christ in our daily living, fulfilling Jesus' prophecy, "The works that I do, shall [ye] do also." Through patient, faithful effort we shall eventually come "unto the measure of the stature of the fulness of Christ."

The slightest amount of spiritual understanding put into practice brings forth abundant results, and faith as a grain of mustard seed is sufficient to remove mountains of error.

Two very noticeable things about students of Christian Science are their daily study of the Bible and the frequency with which they pray. Most of those who are seen reading the Bible on railroad trains or in other places are Christian Scientists, and they are reading not "to be seen of men" but because its pages have been illumined to them through the study of Christian Science, and they allow nothing to deprive them of their reading.

Prayer

Many times in a day a student of Christian Science finds opportunity and necessity for prayer. If, as has been maintained, Christian Science is consistent with the teaching of the

(Continued on Page 11)

NOTICE INVITING SEALED PROPOSALS

Pursuant to statute and to Resolution of the Board of Trustees of the City of Glendale, directing this notice, said Board of Trustees hereby invites sealed proposals or bids for doing the following work in said City, to-wit:

First, That all of the roadway of Sycamore Canon Road, including all street and alley intersections, from the northwesterly prolongation across said Sycamore Canon Road of the southwesterly line of Tract No. 1449, as per map recorded in Book 18, Page 176 of Maps, Records of Los Angeles County, California, to a line drawn across said Sycamore Canon Road three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road (formerly Ninth Street), excepting those portions specifically excepted, be graded and paved to the official line and grade with hydraulic cement concrete pavement, five inches in thickness, in accordance with Plan No. 270, Profile No. 738, and in further accordance with special specifications No. 28 for the paving with concrete base of streets and avenues in the City of Glendale, omitting such portions as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and excepting the following described portions of said roadway:

A. A strip of land of uniform width of nine (9) feet lying four and five-tenths (4.5) feet either side of parallel and contiguous to the following described center line:

Beginning at a point on the west line of Sycamore Canon Road south 0° 4' 35" east one hundred twenty-three and seventy-four hundredths (123.74) feet from the southwest corner of Broadway and Sycamore Canon Road, thence southeasterly on a curve concave southwesterly and having a radius of three hundred seventeen and sixty-four hundredths (317.64) feet a distance of one hundred sixty-four and seventy hundredths (164.70) feet to the end of said curve, a radius line from the point of beginning of said curve bears south 60° 12' 55" west and a radius line from end of said curve bears south 89° 55' 25" west.

B. The center twenty-eight (28) feet of Sycamore Canon Road from the south line of Broadway to the north line of Harvard Street.

C. The center thirty-six (36) feet of Sycamore Canon Road from a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Harvard Street to a line drawn three (3) feet north of and parallel with the north line of Orange Grove Avenue, from a line drawn three (3) feet north of and parallel with the south line of Colorado Street to a line drawn three (3) feet south of and parallel with the north line of Colorado Street; from a line drawn three (3) feet north of and parallel with the south line of Colorado Street to a line drawn three (3) feet south of and parallel with the easterly prolongation of the south line of Elk Avenue; from a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Elk Avenue to a line drawn fifty-seven (57) feet north of and parallel with the easterly prolongation of the south line of Chestnut Street; from a line drawn three (3) feet north of and parallel with the north line of Maple Street; from a line drawn three (3) feet north of and parallel with the westerly prolongation of the south line of Maple Street to a line drawn three (3) feet south of and parallel with the north line of Windsor Road; from a line drawn three (3) feet north of and parallel with the south line of Windsor Road to a line drawn three hundred eighty-one (381) feet south of and parallel with the south line of Windsor Road.

D. The center twenty-four (24) feet of Sycamore Canon Road from the north line of Harvard Street to a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Harvard Street; from a line drawn three (3) feet south of and parallel with the north line of Orange Grove Avenue to a line drawn three (3) feet north of and parallel with the south line of Colorado Street; from a line drawn three (3) feet north of and parallel with the south line of Colorado Street to a line drawn three (3) feet south of and parallel with the easterly prolongation of the south line of Elk Avenue; from a line drawn fifty-seven (57) feet north of and parallel with the easterly prolongation of the south line of Chestnut Street to a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Chestnut Street; from a line drawn three (3) feet south of and parallel with the westerly prolongation of the north line of Maple Street to a line drawn three (3) feet north of and parallel with the westerly prolongation of the south line of Maple Street; from a line drawn three (3) feet south of and parallel with the north line of Windsor Road to a line drawn three (3) feet north of and parallel with the south line of Windsor Road.

Second: A. That the center twenty-eight (28) feet of Sycamore Canon Road from the south line of Broadway to the north line of Harvard Street, and the center twenty-four (24) feet of Sycamore Canon Road from the north line of Harvard Street to a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Harvard Street; from a line drawn three (3) feet south of and parallel with the north line of Orange Grove Avenue to a line drawn three (3) feet north of and parallel with the south line of Colorado Street; from a line drawn three (3) feet north of and parallel with the south line of Colorado Street to a line drawn three (3) feet south of and parallel with the easterly prolongation of the south line of Elk Avenue; from a line drawn fifty-seven (57) feet north of and parallel with the easterly prolongation of the south line of Chestnut Street to a line drawn three (3) feet north of and parallel with the north line of Maple Street; from a line drawn three (3) feet north of and parallel with the westerly prolongation of the south line of Maple Street to a line drawn three (3) feet south of and parallel with the north line of Windsor Road; from a line drawn three (3) feet north of and parallel with the south line of Windsor Road to a line drawn three hundred eighty-one (381) feet south of and parallel with the south line of Windsor Road.

three (3) feet south of and parallel with the north line of Colorado Street to a line drawn three (3) feet north of and parallel with the south line of Colorado Street; from a line drawn three (3) feet south of and parallel with the easterly prolongation of the south line of Elk Avenue to a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Chestnut Street; from a line drawn three (3) feet north of and parallel with the westerly prolongation of the north line of Maple Street to a line drawn three (3) feet north of and parallel with the westerly prolongation of the south line of Maple Street; from a line drawn three (3) feet south of and parallel with the north line of Windsor Road to a line drawn three (3) feet north of and parallel with the westerly prolongation of the south line of Windsor Road, be graded and paved to the official line and grade with macadam pavement six inches in thickness, in accordance with Plan No. 270, Profile No. 738, and in further accordance with special specifications No. 23 for the paving with crushed rock screenings and asphaltic oil of streets and avenues in the City of Glendale, excepting that portion of a strip of land of the uniform width of nine (9) feet lying four and five-tenths (4.5) feet either side of parallel and contiguous to the following described center line:

Beginning at a point on the west line of Sycamore Canon Road south 0° 4' 35" east one hundred twenty-three and seventy-four hundredths (123.74) feet from the southwest corner of Broadway and Sycamore Canon Road, thence southeasterly on a curve concave southwesterly and having a radius of three hundred seventeen and sixty-four hundredths (317.64) feet a distance of one hundred sixty-four and seventy hundredths (164.70) feet to the end of said curve, a radius line from the point of beginning of said curve bears south 60° 12' 55" west and a radius line from end of said curve bears south 89° 55' 25" west, lying within these limits.

Third: A. That a cement curb of the class designated as Class "A" in the hereinafter referred to specifications, including full returns at all street and alley intersections, be constructed along the northerly and westerly line of the roadway of Sycamore Canon Road from the northwesterly prolongation across said Sycamore Canon Road of the southwesterly line of aforesaid Tract No. 1449 to a line drawn across said Sycamore Canon Road sixty-four (64) feet north of and parallel with the north line of Broadway and from a line drawn two hundred twenty-five (225) feet north of and parallel with the north line of Harvard Street to a line drawn across said Sycamore Canon Road three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road (formerly Ninth Street), and along the southerly and easterly line of the roadway of Sycamore Canon Road from a line drawn one hundred forty (140) feet easterly from and parallel with the easterly line of Sinclair Avenue to a line drawn across said Sycamore Canon Road sixty-six (66) feet north of and parallel with the north line of Broadway and from a line drawn five hundred fifteen and seventy-five hundredths (515.75) feet north of and parallel with the north line of Harvard Street to a line drawn across said Sycamore Canon Road three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road.

B. That a cement curb of the class designated as Class "B" in the hereinafter referred to specifications be constructed along a line drawn eighteen (18) feet westerly from and parallel with and eighteen (18) feet easterly from and parallel with the center line of Sycamore Canon Road from a line drawn three (3) feet north of and parallel with the easterly prolongation of the south line of Harvard Street to a line drawn across Sycamore Canon Road three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road.

C. That a cement curbing of the class designated as Class "C" curbing in the hereinafter referred to specifications be constructed along the northerly and westerly line of the northerly and westerly sidewalk hereafter described from the northwesterly prolongation across said Sycamore Canon Road of the southwesterly line of aforesaid Tract No. 1449 to a line drawn across said Sycamore Canon Road sixty-four (64) feet north of and parallel with the north line of Broadway, and from a line drawn two hundred twenty-five (225) feet north of and parallel with the north line of Harvard Street to a line drawn across said Sycamore Canon Road three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road.

The construction of said curbs and curbing shall include full returns at all street and alley intersections and omitting such portions as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and excepting any portion of the above described curbs or curbing over which culverts are to be constructed as described in Section 1 hereof.

Said curb and curbing shall be constructed in accordance with Plan No.

270, Profile No. 738, and in further accordance with Specifications No. 29 for the construction of curbs, sidewalks and culverts in the City of Glendale.

Fourth: A. That a cement sidewalk of the uniform width of six feet six inches be constructed on the northerly and westerly side of Sycamore Canon Road from the northwesterly prolongation across said Sycamore Canon Road of the southwesterly line of aforesaid Tract No. 1449 to a line drawn sixty-four (64) feet north of and parallel with the north line of Broadway and along the southerly and easterly side of Sycamore Canon Road from a line drawn one hundred and sixteen (116) feet easterly from and parallel with the east line of Sinclair Avenue to a line drawn sixty-six (66) feet north from and parallel with the north line of Broadway. Said sidewalk to be adjacent to and contiguous with the back face of the Class "A" cement curb heretofore described.

B. That a cement sidewalk of the uniform width of six feet seven inches be constructed along the west side of Sycamore Canon Road from a line drawn two hundred twenty-five (225) feet north from and parallel with the north line of Harvard Street to a line drawn across said Sycamore Canon Road three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road. Said sidewalk to be adjacent to and contiguous with the back face of the Class "A" cement curb heretofore described. The construction of said sidewalks shall include full returns at all street intersections, and shall be constructed in accordance with Plan No. 270, Profile No. 738, and in further accordance with Specifications No. 29 for the construction of cement curbs, sidewalks and culverts in the City of Glendale.

Fifth: A. That a reinforced concrete and steel culvert seven and thirty-four hundredths (7.34) feet in length be constructed on the north side of Sycamore Canon Road one hundred six and fifty-eight hundredths (106.58) feet westerly from (measured along the northerly curb line of Sycamore Canon Road) the westerly line of Verdugo Road.

B. That a reinforced concrete and steel culvert be constructed on the west side of Sycamore Canon Road from a line drawn sixty-four (64) feet north from and parallel with the north line of Broadway to a line drawn two hundred twenty-five (225) feet north from and parallel with the north line of Harvard Street, and on the south side of Broadway from the west line of Sycamore Canon Road to a point six (6) feet west therefrom, omitting such portions as are required by law to be kept in order or repair by any person or company having railroad tracks thereon.

C. That a reinforced concrete and steel culvert be constructed on the east side of Sycamore Canon Road from a line drawn sixty-six (66) feet north from and parallel with the north line of Broadway to a line drawn five hundred fifteen and seventy-five hundredths (515.75) feet north from and parallel with the north line of Harvard Street; and on the north side of Broadway from the east line of Sycamore Canon Road to a point twenty-one (21) feet easterly therefrom and on the south side of Broadway from the east line of Sycamore Canon Road to a point eight (8) feet easterly therefrom.

Said culverts, together with all man holes, guards, and appurtenances necessary for the effective operation of the same shall be constructed in accordance with Plans No. 270, and No. 272, Profile No. 738, and in further accordance with Specifications No. 29 for the construction of curbs, sidewalks, culverts, and so forth, in the City of Glendale.

Sixth: That one (1) inch galvanized Byers wrought-iron pipe and fitting, or equivalent, be laid fifteen (15) inches back of and parallel with the face of the Class "A" curb on the northerly and westerly side of Sycamore Canon Road from the northwesterly prolongation across said Sycamore Canon Road of the southwesterly line of aforesaid Tract No. 1449 to a line drawn three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road and fifteen (15) inches back of and parallel with the face of the Class "A" curb on the southerly and easterly line of Sycamore Canon Road from a line drawn parallel with and one hundred twenty (120) feet easterly from the east line of Sinclair Avenue to a line drawn three hundred eighty-one (381) feet southerly from and parallel with the south line of Windsor Road, in accordance with Plan No. 270, Profile No. 738, and in further accordance with Specifications No. 30 for the laying of one (1) inch pipe in the City of Glendale.

Section 2. First: That all of the roadway of Verdugo Road from the easterly prolongation across Verdugo Road of the north line of Lexington Drive (formerly First Street) to the northerly line of Sycamore Canon Road, and from the southerly line of Sycamore Canon Road to a line drawn across said Verdugo Road one hundred twenty-five (125) feet southerly from and parallel with the southerly line of Sycamore Canon Road, including all intersections of streets between these points, and that all of the roadway of Lexington Drive (formerly First Street) from the westerly line of Verdugo Road to a line drawn at right angles to and across Lexington Drive from a point on the north line thereof fifty (50) feet westerly from the northwest corner of Verdugo Road and Lexington Drive, be graded and paved with a hydraulic cement concrete pavement four (4) inches in thickness, in accordance with Plan No. 270, Profile No. 738, and in further accordance with Special Specifications No. 28 for the paving with concrete base of streets in the City of Glendale.

Second: That a cement curb of the class designated as Class "B" curb in the hereinafter referred to specifications be constructed along the north and south lines of the roadway of Lexington Drive from the westerly line of Verdugo Road to a line drawn at right angles to and across said Lexington Drive at a point in the north line thereof fifty (50) feet westerly from the northwest corner of Verdugo Road and Lexington Drive, be graded and paved with a hydraulic cement concrete pavement four (4) inches in thickness, in accordance with Plan No. 270, Profile No. 738, and in further accordance with Special Specifications No. 28 for the paving with concrete base of streets in the City of Glendale.

Second: That a cement curb of the class designated as Class "B" curb in the hereinafter referred to specifications be constructed along the north and south lines of the roadway of Verdugo Road from the easterly prolongation across said Verdugo Road of the north line of Lexington Drive to a line drawn across said Verdugo Road one hundred twenty-five (125) feet southerly from and parallel with the southerly line of Sycamore Canon Road.

B. That a cement curb of the class designated as Class "B" curb in the hereinafter referred to specifications be constructed along the north and south lines of the roadway of Lexington Drive from the westerly line of Verdugo Road to a line drawn at right angles to and across said Lexington Drive from a point on the north line thereof fifty (50) feet west from the northwest corner of Lexington Drive and Verdugo Road.

The construction of said curbs to include full returns at all street intersections, and in accordance with Plan No. 270, and Profiles Nos. 736, and 737, and in further accordance with Special Specifications No. 29 for the construction of curbs, sidewalks, and culverts in the City of Glendale.

Third: That a cement sidewalk of the uniform width of five (5) feet be constructed along the north and south lines of Lexington Drive from the westerly line of Verdugo Road to a line drawn at right angles to and across said Lexington Drive at a point in the north line thereof fifty (50) feet west from the northwest corner of Verdugo Road and Lexington Drive.

The construction of said sidewalks shall be in accordance with Plan No. 270, Profile No. 737, and in further accordance with Special Specifications No. 29 for the construction of curbs, sidewalks and culverts in the City of Glendale.

Section 3. First: That all of the roadway of Broadway from the westerly line of Sycamore Canon Road to a line drawn from a point on the north line of Broadway twenty-five (25) feet westerly from the northwest corner of Broadway and Sycamore Canon Road to a point on the south line of Broadway twenty-five (25) feet westerly from the southwest corner of Sycamore Canon Road and Broadway, excepting the center twenty-three (23) feet thereof, and that all of the roadway of Broadway from the easterly line of Sycamore Canon Road to a line drawn across Broadway from a point on the north line thereof twenty-five (25) feet easterly from the northeast corner of Broadway and Sycamore Canon Road to a point on the south line of Broadway twenty-five (25) feet easterly from the southeast corner of Broadway and Sycamore Canon Road, excepting the center twenty-three (23) feet thereof, be graded and paved with hydraulic cement concrete pavement five (5) inches in thickness, in accordance with Plan No. 270, Profile No. 732, and in further accordance with Special Specifications No. 28 for the paving with concrete base of streets and avenues in the City of Glendale.

Second: That a cement curb of the class designated as Class "B" curb in the hereinafter referred to specifications be constructed along the northerly and southerly lines of the roadway of Broadway from the westerly line of Sycamore Canon Road to a line drawn across Broadway from a point on the north line thereof twenty-five (25) feet westerly from the northwest corner of Broadway and Sycamore Canon Road to a point on the southerly line of Broadway twenty-five (25) feet westerly from the southwest corner of Broadway and Sycamore Canon Road, and along the northerly and southerly line of the roadway of Broadway from the easterly line of Sycamore Canon Road to a line drawn across Broadway from a point on the north line thereof twenty-five (25) feet easterly from the northeast corner of Broadway and Sycamore Canon Road to a point on the south line of Broadway twenty-five (25) feet easterly from the southeast corner of Broadway and Sycamore Canon Road, excepting any portion of the above curbs over which culverts are to be constructed as described in Section 1 hereof.

Said curb shall be constructed in accordance with Plan No. 270, Profile No. 732, and in further accordance with Specifications No. 29 for the construction of curbs, sidewalks, and culverts in the City of Glendale.

Third: A. That a cement sidewalk of the uniform width of five (5) feet be constructed along the northerly and southerly lines of Broadway from the westerly line of Sycamore Canon Road to a line drawn across Broadway from a point on the north line thereof twenty-five (25) feet westerly from the northwest corner of Broadway and Sycamore Canon Road to a point on the south line of Broadway twenty-five (25) feet westerly from the southwest corner of Broadway and Sycamore Canon Road and along the northerly and southerly lines of Broadway from the easterly line of Sycamore Canon Road to a line drawn across Broadway from a point on the north line thereof twenty-five (25) feet easterly from the northeast corner of Broadway and Sycamore Canon Road to a point on the south line of Broadway twenty-five (25) feet easterly from the southeast corner of Broadway and Sycamore Canon Road, excepting any portion of the above walks over which culverts are to be constructed as described in Section 1 hereof.

Said sidewalks shall be constructed in accordance with Plan No. 270, Profile No. 732, and in further accordance with Specifications No. 29 for the construction of curbs, sidewalks and culverts in the City of Glendale.

Section 4. That said contemplated work or improvement in the opinion of said Board is of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described, and said Board of Trustees hereby declares that the district in said City of Glendale benefited by said work or improvement and to be assessed to pay the costs and expenses thereof, is described as follows:

Beginning at a point on the northwesterly boundary line of the City of Glendale where said boundary line is intersected by a line drawn five hundred and fifty (550) feet northerly from and parallel with the northerly line of Sycamore Canon Road, thence southerly, southeasterly, northeasterly, southerly, southeasterly, and southerly following the various courses of the northeasterly boundary line of the City of Glendale to the southeast corner of Lot 4 of Hodgkins Subdivision, as per map recorded in Book 5, Page 576, Miscellaneous Records of Los Angeles County, California, thence northwesterly along the northeasterly lines of Lots 78 and 79 of Watts subdivision of the Rancho San Rafael, as per map recorded in Book 5, Page 200 and 201, Miscellaneous Records of aforesaid County, to a point on the northwesterly line of said Lot 79 two hundred fifty-three and forty-four hundredths (253.44) feet northwesterly from the most easterly corner thereof, thence southwesterly parallel with the southeasterly line of said Lot 79 to an intersection with the northeasterly line of Lot 75 of said Watts Subdivision, thence northwesterly along the northeasterly line of said Lot 75 to the northwest corner thereof, thence southerly along the westerly line of said Lot 75 to a point on said line six hundred nineteen and forty-four hundredths (619.44) feet south of the south line of Broadway, thence easterly parallel with the south line of said Lot 75 to the easterly boundary line of the City of Glendale, thence southerly, westerly and southerly following the various courses of the said boundary line to an angle point in said line three hundred sixty-two and nine hundredths (362.09) feet southerly of the south line of the Eagle Dale Tract, as per map recorded in Book 16, Page 185 of Maps, Records of aforesaid County, thence westerly in a direct line to the southeast corner of Tract No. 2176, as per map recorded in Book 27, Page 54 of Maps, Records of aforesaid County, thence westerly along the southerly line of said Tract No. 2176 to a point in said line four hundred forty and twenty-two hundredths (440.22) feet easterly of the east line of Verdugo Road, thence southerly parallel with and four hundred forty and twenty-two hundredths (440.22) feet easterly from the east line of Verdugo Road to the southerly boundary line of the City of Glendale; thence westerly and southerly following the various courses of said boundary line to the southwest corner of Hilda Avenue and Verdugo Road, thence westerly along the southerly lines of Hilda Avenue and Garfield Avenue to the westerly line of Hilda Heights Tract, as per map recorded in Book 18, Pages 170 and 171 of Maps, Records of Los Angeles County, California, thence westerly on the westerly prolongation of the southerly line of said Garfield Avenue three hundred forty-three and eighty-six hundredths (343.86) feet, thence northerly parallel with the westerly line of said Hilda Heights Tract to an intersection with the easterly prolongation of the southerly line of Lot 1 of the Subdivision of Lot 34 of Watts Subdivision, as per map recorded in Book 36, Page 4, Miscellaneous Records of aforesaid county, thence westerly along said easterly prolongation of the south line of said Lot 1 to the southeast corner of said Lot 1, thence westerly along the southerly line of Lots 1, 2, and 3 of said Subdivision of Lot 34 to the southwest corner of said Lot 3, thence southerly along the westerly line of said Subdivision of Lot 34 to a point in said line three hundred ninety-six (396.00) feet southerly from the south line of Windsor Road, thence westerly parallel with and three hundred ninety-six (396.00) feet southerly from the south line of Windsor Road, to a point sixty-five (65.00) feet west of the west line of Lot 33 of said aforesaid Watts Subdivision, thence northerly parallel with the westerly line of said Lot 33 to the south line of Windsor Road, thence northerly in a direct line across Windsor Road to the southwest corner of Lot 5 of the Pinewood Terrace Tract, as per map recorded in Book 15, Page 45 of Maps, Records of aforesaid County, thence northerly along the west line of Lots 5 and 12 of said Pinewood Terrace to the northwest corner of said Lot 12, thence northerly in a direct line across Raleigh Street to the southwest corner of Lot 21 of said Pinewood Terrace, thence northerly along the westerly line of Lots 21 and 28 of said Pinewood Terrace to the southerly line of Maple Street, thence northerly in a direct line across Maple Street to the southwest corner of Lot 45 of the Witham Tract, as per map recorded in Book 14, Page 91 of Maps, records of aforesaid county, thence northerly in a direct line to a point on the south line of Lomita Avenue one hundred fifty (150.00) feet east of the southeast corner of Lomita Avenue and Everett Street, thence east along the south line of Lomita Avenue to a point where said line is intersected by the southerly prolongation of the center line of Everett Street, thence northerly along said southerly prolongation of the center line of Everett Street, and the center line of Everett Street, to the center line of Wilson Avenue, thence east along the center line of Wilson Avenue to the center line of Cedar Street, thence northerly along the center line of Cedar Street to the center line of Lexington Drive, thence easterly along the center line of Lexington Drive to an intersection with the southerly prolongation of the east line of Tract No. 1026, as per map recorded in Book 17, Pages 70 and 71 of Maps, Records of aforesaid County, thence northerly along said southerly prolongation of the east line of said Tract No. 1026, and the

east line of said Tract No. 1026 to a point in said line four hundred (400) feet north of the north line of Lexington Drive; thence easterly parallel with and distant four hundred (400) feet northerly from the north line of Lexington Drive to an intersection with the easterly line of Verdugo Road; thence southerly along the easterly line of Verdugo Road to a point where said line is intersected by a line drawn five hundred fifty (550) feet northerly from and parallel with the northerly line of Sycamore Canon Road; thence easterly parallel with the northerly line of Sycamore Canon Road to the point of beginning. Provided, however, that there shall be excepted and omitted from the assessment to be made to cover the costs and expenses of the proposed work and improvement the following described lands which are included within the assessment district above described and which lands belong to the Glendale City School District and are being used for public school purposes:

Beginning at the northeast corner of Broadway and Sycamore Canon Road; thence northerly along the easterly line of Sycamore Canon Road to the south line of Wilson Avenue; thence east along the south line of Wilson Avenue to the northeast corner of Lot 5, Tract No. 1680, as per Map recorded in Book 21, Page 66 of Maps, Records of Los Angeles County, California; thence southerly along the east line of said Lot 5 to the southeast corner thereof; thence southerly in a direct line to the northeast corner of Lot 28 of said Tract No. 1680; thence southerly along the easterly line of Lots 28, 29, 30 and 31 to the southeast corner of Lot 31 of said Tract No. 1680; thence easterly along the southerly line of said Tract No. 1680 to a point on said line two hundred sixty-five and forty-five hundredths (265.45) feet easterly from the east line of Sycamore Canon Road; thence southerly parallel with the easterly line of Sycamore Canon Road and distant two hundred sixty-five and forty-five hundredths (265.45) feet easterly therefrom, to an intersection with north line of Broadway; thence westerly along the north line of Broadway to the point of beginning.

Excepting therefrom any portion of any public street or alley included within said assessment district. This description is general only.

Reference is hereby made to Map No. 271, in which the assessment district referred to is shown within red colored border line.

Section 5. The Board of Trustees of the City of Glendale determine that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; that serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January, every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July respectively of each year, at the rate of seven per cent. per annum on all sums unpaid until the whole of said principal and interest are paid. All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California, designated as the "Improvement Act of 1911," approved April 7, 1911, and the amendments thereto.

Reference is hereby made to Resolution of Intention No. 1092 of said Board of Trustees declaring its intention to order said work to be done, for further particulars, which Resolution is on file in the office of the City Clerk.

All proposals or bids shall be accompanied by a check, payable to the City of Glendale, certified by a responsible bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal, or by a bond for the said amount and so payable, signed by the bidder and two sureties, who shall justify, before any officer competent to administer an oath, in double the said amount, and over and above all statutory exemptions.

Said sealed proposals or bids shall be delivered to the Clerk of the said Board of Trustees, on or before eight o'clock p. m. of the 13th day of May, 1920, said time being not less than ten days from the time of the first publication and posting of this notice. Bids will be opened on said day and hour.

J. C. SHERER,
Clerk of the Board of
Trustees of the City of
Glendale, California.

NOW IS THE TIME

We are Aiming Straight at YOU, Mr. Citizen

What Are You Going to Do About It?

The efficiency of our schools is threatened by an acute shortage of teachers.

The shortage has occurred because teachers are quitting teaching positions for other work that pays them a living wage.

Would you rather save a few dollars at the expense of the education of your children? Or would you prefer to pay a proper wage to teachers knowing that your children are the real gainers thereby?

IT IS UP TO YOU, MR. CITIZEN

Citizens' School Survey Committee of Los Angeles City and County

The Woman

Who thinks she can't afford to buy electrical appliances hasn't given the matter very serious consideration.

Anything that saves so much time and labor and can be operated so cheaply as an electric washer or an electric cleaner, is worth considering.

Won't You Let Our Salesman Call At Your Home And Demonstrate These Appliances To You?

Call Glendale 568 for appointment or call at our store and see our complete stock of appliances and fixtures.

We can please you on that wiring job, too!

CHRISTIAN SCIENCE LECTURE

(Continued from Page 9)

Master, it will be found not only that the prayer of the Christian Scientist conforms logically with its teaching but is absolutely in accordance with the instructions of the Master. He gave to his disciples a prayer, and in addition very definite instruction about praying for those things which they desired. The Lord's Prayer understood heals the sick. When we realize that there is no other kingdom—that is, that God rules over all and that sin and disease have no power—then the prayer, "For thine is the kingdom, and the power, and the glory," will heal the sick, not because we simply say these words but because we say them and understand that they are true.

In the Gospel according to Mark the Master says, "What things soever ye desire, when ye pray, believe that ye receive them, and ye shall have them." The Revised Version puts it, "What things soever ye desire, when ye pray believe that ye have received them, and ye shall have them." The attitude of the revisers has been to make changes only when the previous translation was manifestly wrong, so we should be able to accept this latter translation as correct, especially when we consider the fact that it is a method of prayer which was probably not familiar to those who made the translation, and no doubt many people who are numbered among the followers of Christ would scarcely understand how they could consistently offer such a prayer. To the Christian Scientist it is the definite confirmation of his method of prayer. We have previously brought out the fact that God is Mind and that man is the perfect idea of Mind, manifesting all the qualities of Life and Truth and of Love. When, therefore, there comes to human consciousness a thought of sickness and we desire to be conscious of health, we declare in the words of the Master that we "have received" health because it is the spiritual fact that God's child is always well, and we find that the Master's promise, "and ye shall have it," is fulfilled to the degree we have understood.

The reasoning of Christian Science brings divine Love close to human experience. The recognition that God is Mind and that man is His perfect idea is the basis for Christian Science healing. When we measure our thoughts by this divine standard and undertake as far as possible to entertain only that thought which we know to be of God, the thought which has made us sick or unhappy is eliminated.

The Effectiveness of Truth

The belief that one kind of disease or abnormal condition of the body is harder to heal than another is not the fact, and this erroneous thought should be denied. No wrong physical condition can be manifested for an instant except as it is the expression of wrong thinking, and right thinking eliminates one wrong thought as readily as another. Every claim of illness or sin or of discord which comes to Christian Science for healing is not a task to be done but one more welcome opportunity to prove again that Christian Science heals. "Progress is the law of God," Mrs. Eddy has said, and it is impossible to study God's law without making progress. Like the child with his daily lessons, we may not be conscious that we know more to-day than we did yesterday, yet with added understanding we should approach the problem with confidence to-day, which yesterday seemed not to yield.

As a result of much experience in Christian Science I do not hesitate to say that a physical diagnosis of disease is not only unnecessary but may be harmful. It is sometimes proposed on the ground that it will enable the Christian Scientist to know just what conditions to deny. What is needed is the recognition and declaration of man's perfection as the divine idea, and whatever is contrary thereto should be denied. We do not need to know more about disease but more about God. A famous physician has said that in his diagnoses he has been wrong half the time. What is the use of denying beliefs from which the patient has never suffered? The thought that an uncovered medical belief can frustrate divine Truth is giving to materiality a power it does not have. We need to know that Truth declared heals not only that which is seen but that which is unseen. One to whom a healing comes slowly and by degrees is heard to say, "I wonder what is holding me?" If you have been made to believe that there is something holding you, that is all that is necessary to retard your progress. On the Western plains a saddle horse is trained to believe that when the reins are thrown on the ground that it is tied to that spot. It is prevented from moving only because it believes that there is something holding it. We need to see that there is nothing holding us but divine Love, and nothing to prevent the healing.

Our Divine Inheritance

The real man is Mind's idea and inherits divine intelligence and perfect form and function. It is believed that man inherits both good and bad physical qualities from his parents. Every physical condition is thought manifested so then the inheritance is not in the physical manifestation but in the thought which produces it. It must be apparent that the truth can as readily replace a belief which came from one's parents as one coming from any other source. Heredity is not a law, but a belief, and the application of the law of divine inheritance, perfect God and perfect man, not only destroys distressing hereditary conditions, but improves and transforms every other inherited quality and characteristic.

Climate has no power to harm or to help. Rheumatic sufferers leave some locality, believing it to be detrimental, while others suffering from the same difficulty come to this same spot for its beneficial effects. The effect which sometimes follows a change of climate is brought about by the changed thought. All that is needed to get rid of the belief that

W. R. C. ENTERTAINED

MEN OF N. P. BANKS POST SERVE A DINNER TO MEMBERS OF THE CORPS

Members of the N. P. Banks Post and Corps are accustomed to an all-day meeting once a month and to a dinner together but the meeting which took place Friday of the present week was different. It was prepared and arranged by the comrades. The members of the Corps were guests of honor and ladies of leisure. With due ceremony they were conducted to the table and served first by their devoted squires. Then a second table was spread for the "mere men" of the day. The women, who are fairly critical, declare the tables were beautifully spread, the rose decorations all they should be, and the dinner as good as anybody could want. The delicious coffee came in for a word of special appreciation. Doubtless the Johnny who made it learned the art while tenting on the old camp ground during the Civil War. The committee of arrangements included Post Commander Robinson and Comrades Taylor, Scudder, Gillette, Norton and Collins. The long table, which seats 78, was filled more than twice. From these statistics it will be seen that the meeting was exceptionally large. There were distinguished and welcome guests, the list including Department Commander Martin and Mrs. Martin, R. Heffelfinger, Assistant Adjutant General of the Department, and Mrs. Heffelfinger, who is Department Chaplain of the Corps; Frederick Martin, who has been Commander of the Rosecranz Camp of the Sons of Veterans, and Mrs. Martin, who has been a Past President of the Corps; G. B. Andrews from the Joe Hooker Post of Canton, Illinois; G. W. Race and Mrs. Race of the G. W. Custer Post and Corps of Tacoma, Washington; C. G. Hickart and Mrs. Hickart of Columbus, Nebr.

The dinner was followed by informal talks. It will be remembered that Comrade and Mrs. West recently celebrated their fiftieth wedding anniversary. Comrade Norton addressed them in a neat little speech in the course of which he read a newspaper clipping describing their recent anniversary, and followed the reading by assuring them of the high regard in which they are held by Post and Corps.

Department Commander Martin also made a short speech in which he referred to the fact that the Corps is increasing in membership while the Post is decreasing as death calls upon the comrades to break rank. "The time is not far distant," he declared, "when the Grand Army will be no more and the Relief Corps will have to take up other work." He suggested that child welfare work or work among our foreign peoples would be an excellent thing to take up when it became necessary to find a new field for the organization.

Comrade Kanouse referred feelingly to the comrades recently gone, particularly mentioning Comrade Patterson who like Mr. Kanouse was one of the charter members of the Post. The speaker told of the long rides he had to take at that time to get in touch with the veterans and interest them in the organization of a Post. The talk was a eulogy of the comrades whose faces he so sorely missed.

Former Commander Clark, who was last on the program, made an excellent talk along patriotic lines. That ended the session except for the ceremony of selling the pies and cakes that had been left and turning the funds into the Post treasury. It had been such a big party that not many of the delicacies mentioned were left to sell, but Comrade Taylor took charge of the matter and closed them out.

FREIGHT TRAINS MOVING REGULARLY

The cheerful rumble and roar of long freight trains is heard again at regular scheduled intervals on the S. P. through Glendale, betokening that service has been resumed in full after being held up two weeks by the outlaw strike. All roads out of Los Angeles are now accepting shipments of all kinds for Eastern as well as local points.

climate can injure one is to become conscious of the atmosphere of Spirit.

One after another of the material beliefs which have bound us are annulled through the application of spiritual law, and we are learning that food, or water, or cold, or heat, or dampness, or dust, or contact with our brother man, never had any power to harm us, for the divine idea comes in contact with nothing but that which is harmonious and healthful and manifests only the goodness of God. The divine Principle corrects inharmonious and unsuccessful business conditions, and sorrow and disappointment are removed by the law of Love.

Each inharmonious condition which is overcome through spiritual understanding increases one's consciousness of joy and harmony. Envy, jealousy, malice, and every form of sin, are destructive of peace and happiness. We shall not have appropriated the divine blessing fully until we have overcome sin as well as sickness. Every effort towards spirituality and away from that which is material brings a rich reward. "He that overcometh shall inherit all things; and I will be his God, and he shall be my son."

The Ward Floor Furnace

A gas furnace that is different; a furnace that does away with the disagreeable features that distinguish the usual gas furnace.

Makes Cozy Homes

It is so convenient to "take the chill off" the house on cool evenings in spring and summer as well as to heat the rooms in the colder winter weather.

Sunday Services at the Churches

PRESBYTERIAN CHURCH
W. E. Edmonds, Pastor. Communion service and reception of new members. To this sacred communion service we cordially invite all who love our Lord Jesus Christ in sincerity and in truth. As far as possible, all Presbyterians are urged to attend. This will be one of the greatest services ever held in the church. Evening service 7:30. A special praise service with an appropriate message by the pastor. Sabbath School, 9:30. H. L. Finlay, Superintendent. C. E. meetings at the usual hours. Reception to new members next Thursday evening, 8-10. P-K division in charge. All members of the church expected. Musical Program: Organ Solo, "Lead Kindly Light" (Transcription by West); Miss Helen Rice; Quartette, "Not Aslamed of Thee" (Jules de Vere); Duet, "The Angel" (Rubenstein); Mrs. Zetta Gibbons and Mrs. Fannie Marple Retts; Organ, "Flee as a Bird to Your Mountain"; Contralto Solo, Mrs. Fannie Marple Retts; Organ, "Festival March" (Read). Evening special musical program: Organ Solo, "Pilgrim Chorus" (Wagner-Eddy); Miss Rice; Male Quartette, "Follow the Light" (Ramler); Mr. Allen McDaniel, Dr. P. O. Lucas, Mr. William Marple, Mr. Clifford Riggs; Duet, "Come Holy Spirit" (Jerome); Mr. McDaniel and Mr. Riggs; Mixed Quartette, "Fearless, I'll Follow" (Byshe); Anna May Galloway and Mrs. Fannie Marple Retts; Mr. Allen McDaniel, Mr. Clifford Riggs; Soprano Solo, "Abide With Me" (Spence); Anna May Galloway; Male Quartette, "A Shelter in the Time of Storm" (Rosche); Mixed Quartette, "Closer to Thee" (Lorenz); Violin Solo, "Ave Maria" (Shubert-Wilhelm); Mr. McDaniel, accompanied by Mrs. McDaniel; Organ Prelude in A Flat, "Ave Maria" (Gounod); Miss Rice; Male Quartette, "Speed Away" (Woodbury); Gospel Solo, Mrs. Fannie Marple Retts; Organ (selected).

FIRST METHODIST CHURCH
Corner Kenwood and Wilson. Rev. Clyde Monroe Crist, D. D., Pastor. Sunday School (graded) 9:30. Prof. A. W. Tower, Superintendent. Wanted, 100 more. It is a great school, attractive and efficient. Dr. W. L. Y. Davis, District Superintendent, will preach. It will be a full house. Class Meeting at 12:15. Rev. C. R. Norton, Leader. Epworth League, 6:25. Subject, "Will a Man Rob God?" Leader, Mr. Delos Jones. Intermediate League, 6:30. (Ages 12 to 14 years). Mr. L. C. Leeds, Superintendent. Brotherhood round table, 6:45. A. G. Lindley, Leader. Men are welcome. Evening sermon by the Pastor. Subject, "What School Do You Attend?" The acousticon is installed for those who need it. The usher will direct you. Come to "A Church That Seems Like Home." The following will be the music for the day, Miss Isabelle Isgrig, directing, and Mrs. H. W. Randall at the organ: Morning music: Prelude, "Toccato" (Rogers); Anthem, "Fear Not Ye O Israel" (Spicker); Quartet, "How Long Will Thou Forget Me?" (Pfleuger); Miss Isgrig, Mrs. MacGregor, Mr. Kuehne, Mr. Miller; Postlude (Eddy). Evening music: Prelude, "Meditation" (Elgar); Gospel Quartet, Selected. Mr. Clarke, Mr. Groutage, Mr. Starkey, Mr. Sherman; Anthem, "Comes at Times a Stillness" (Galbraith); Solo, "Night and Morning" (Spicker); Margaret Lusby; Postlude (Carl).

FIRST BAPTIST CHURCH
Ernest E. Ford, Pastor. The Big Day is here. The Zero Hour will strike at 12 o'clock on Sunday. Sunday School as usual at 9:30 with Mr. Roy L. Kent as Superintendent. At 11 o'clock the pastor will speak from the theme, "Ambassadors." The Captains with their teams are all in harness, and ready for the word to "Go." This will be given at the close of the service. Sunday evening "Reports" will be given by the team captains, and totals shown on a large blackboard. The pastor will show stereopticon pictures of the Home Field and some of the needs at the 7:30 service. Everybody is welcome to this service. The Young People will meet at 6:30 for their meeting, with Mr. Harry W. Chase as the leader.

CONGREGATIONAL CHURCH
Location of church at Central and Wilson. Dr. E. H. Willisford, Minister. Two interesting and important services will be held. 11 a. m. Dr. Willisford speaks on "Our Part in the Interchurch World Movement." 7:30 p. m. Mrs. Willisford will read the famous play by John Drinkwater entitled, "Abraham Lincoln." The musical accompaniment will be by Mrs. H. R. Boyer. The play was recently read at the Glendale Tuesday Afternoon Club. The play has been the sensation of England and New York City. 9:45 a. m. Sunday School. 6:30 p. m. Young People's Meeting.

CHRISTIAN SCIENCE CHURCH
First Church of Christ, Scientist, corner Maryland and California avenues. Services Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, April 25, "Probation After Death." Sunday School 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 S. Brand Blvd., open daily except Sunday and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

CHRISTIAN CHURCH
Corner Louise and Colorado. Clifford A. Cole, Minister. Bible School, 9:30 a. m. Preaching and communion service at 10:30 a. m. Young people's meetings at 6:30 and evening services at 7:30. Sermon topics: "The Church Demands Dead-earnestness," "Is God's Forgiveness Cheap?" The choir will render special music at each service.

SEVENTH-DAY ADVENTIST NOTES

Elder B. E. Beddoe, of San Francisco, has been spending a few days the past week in Glendale visiting his sister, Mrs. J. Adams Stevenson, of South Everett street, and attending to business interests here.

Of interest to the Glendale friends of Elder E. E. Andross, who formerly resided on North Isabel St., is the news of his wedding which took place last Wednesday evening in Washington, D. C. The bride is Miss Matilda Erickson, a resident of that city.

Mr. and Mrs. C. C. Childs of 400 North Salem street, are eagerly anticipating their move into their new home on Myrtle street which will be ready next week.

Prof. W. W. Ruble, of North Isabel, is at Phoenix, Ariz., for a few days in the interests of the Seventh-day Adventist school.

Elder J. Adams Stevenson, of S. Everett, is leaving Monday for Utah where he will attend to the interests of the Seventh-day Adventist Home Missionary Association, of which he is the Department Secretary.

Elder J. W. Christian, 405 North Isabel, is leaving tomorrow evening for San Francisco and St. Helena for a few days' trip.

Mr. and Mrs. M. B. Emerson, who are staying for the present at 441 Salem, are away on a visit to their daughter, Mrs. R. A. Hare, of Lodi, Cal. They made the trip by auto and are expected to return the first of next week.

HOOVER THE MAN

TRIBUTE FROM ONE WAS FELLOW CITIZEN IN PALO ALTO

Any body of people banded together for efficient work must have some form of publicity which faithfully sets forth their principles and thereby arouses all who read to individual responsibility, that they may recognize a principle in doing things and a lack of principle in leaving the work of thinking to be done by someone else.

We all believe in arbitration, even with our children, and much more so with capital and labor. Then why is not a League of Nations just and right? It is the spirit of pure Christianity.

The writer has personally known Herbert Hoover when she was a citizen of his home town, Palo Alto, Cal., and she cast her first vote at the primaries with him for Roosevelt. She knows him then as a capable business man with sound ideas and a clean life. These qualities he has always shown.

What true, English-speaking, American citizen would not gladly, joyously, take up the work of making Herbert Hoover President? Then attend the rally Tuesday night in the High School auditorium.

ELLA W. RICHARDSON.

SHAKESPEAREAN TEA

(Continued from Page 1)

Brabantio; Mrs. Charles Temple, Hermione; Mrs. Frank Arnold, Juliet; Mrs. W. E. Halstead, Paulina; Mrs. Oscar Von Oven, Hamlet; Mrs. Montgomery, Cordelia; Miss Esther Ralston, Mercutio.

Rarely, if ever, has the Masonic auditorium looked lovelier and well it might, for the committee of arrangements, headed by Mrs. Montgomery, had been at work for days preparing for the event. Wires strung from North to South at intervals the full length of the room were twined with ivy and scarlet geranium bloom. At intervals along the north and south walls and at the back of the stage were white lattice-work panels twined with ivy and red geraniums. The edge of the platform was draped with a festoon of ivy and geraniums. An occasional white pedestal supported a jar of deep, deep fragrant red roses.

Small tables covered with dainty linen whereon silver gleamed around a floral centerpiece were distributed irregularly where they would best serve members and guests, and when it came time to enjoy the tea and the delicious scones served with it, the scene was most animated and picturesque with a fair Shakespearean dame presiding over each tea urn. In arranging this pretty setting Mrs. Waite, the chairman, was assisted by Mesdames Montgomery, Kling, Halstead and Jones.

The scenes put on by the Galpin

Here's Hoover Campaign Song

College Boys Singing it and Bands will Soon be Playing it Everywhere

They are singing it on American college campuses everywhere—big, deep-lunged college boys. Men and women at work are humming it in factory and office. It has been set to music, and bands will soon be playing it wherever people gather. In every Hoover stronghold its refrain is heard. Here it is—the Hoover campaign battle-cry:

"Whoop! Whoop! Whoop'er up for Hoover, Hoover, Hoover, big man Hoover, He's all right—we'll put him over. Rah! Rah! Rah! Hoorah for Hoover!"

We'll let it got at that." She sang "Sweet Are the Uses of Adversity" and "Now the Hungry Lion Roars," and was recalled to make her acknowledgments of the warm applause which as a matter of fact greeted all the numbers, for the audience thoroughly enjoyed itself and was responsive.

Mrs. Arnold and Mrs. Parker were presented with this couplet: "Romeo will now step forth With charming Juliet. They'll please you one and all I'm sure"

By singing a duet." They sang "It Was a Loner and His Lass," and in response to demand for an encore, "Sigh No More, Ladies."

The concluding number was a contra dance of the time of Shakespeare by members of the Glendale Section led by Mrs. Yard and Mrs. Von Oven.

Club ladies were wonderfully artistic and must have filled with pride the heart of Mrs. McClure, who has served them as she has the Glendale Section as instructor. The relations between the two groups of students are most cordial. Mrs. McClure announced the scenes as they were presented and Mrs. Montgomery performed the same service for the Glendale Section when musical or other numbers were given. The actors had the satisfaction of a rarely appreciative audience in the other Section which, because of its close study, could not appraise at its full value every detail of the performance. The scenes included:

"Taming of the Shrew," the assignments being: "Katherine," Mrs. Robinson; "Petrucio," Mrs. Micklin; "Baptista," Mrs. Kesler. "Merchant of Venice," moonlight scene between "Lorenzo" taken by Mrs. West, and "Jessica," taken by Mrs. Sterns.

"Merry Wives of Windsor," "Mistress Page," Mrs. Freeman; "Mistress Ford," Mrs. Barnmore; "Falstaff," Mrs. J. S. Thayer.

"Comedy of Errors," "Antipholus of Syracuse," Mrs. Kesler; "Dromio of Syracuse," Miss Maynard; "Adriana," Mrs. West; "Antipholus of Ephesus," Mrs. Mecklin; "Dromio of Ephesus," Mrs. Robinson; "Balthazar," Mrs. Kesler.

The musical program opened with lively piano compositions played by Miss Champlain as Rosalind and announced as dances of Shakespeare's time. They were an excellent preparation for what was to follow. Rosalind was introduced by Mrs. Montgomery, as were her fellow artists, with a bit of verse. That which announced the second musical number, a quartette, was:

"Introducing Petrucio and Katherine,

Romeo and Juliet.

Famous from here to Detroit, From New York to Joliet."

These ladies, Mesdames Parker, Cotton, Roach and Arnold, and whose voices blended most beautifully, sang a Shakespearean Bee Song.

Mrs. Cotton was introduced as follows:

"Catherine was a famous shrew, Shakespeare sometimes called her 'Cat'.

If she'll only sing for us,
